A TWO DAY
WORKSHOP ON

MICROCONTROLLER MSP 430 AND ITS APPLICATIONS

In Association with
ADVANCED ELECTRONIC SYSTEMS
26 and 27 March 2013

Organized By
**Department of Electronics and Communication
Engineering**

**SHRI MADHWA VADIRAJA INSTITUTE OF
TECHNOLOGY AND MANAGEMENT**

(A Unit of Shri Sode Vadiraja Mutt Education Trust (R.))
Vishwothama Nagar, Bantakal, Udupi – 574 115, Karnataka, India
Tel: +91 820-2589183

ABOUT THE INSTITUTION

Shri Madhwa Vadiraja Institute of Technology and Management, promoted by Shri Sode Mutt Education Trust, Udupi came into existence during August 2010, after receiving approval from All India Council for Technical Education, New Delhi, affiliation from Visvesvaraya Technological University, Belgaum and recognition from Government of Karnataka.

The college is located in a sylvan settings amid lots of greenery at Vishwothama Nagar, Bantakal, Udupi District. The sprawling 70 acre campus is on the Katpady-Belman Road, about 6 kms off the NH 66.

HOW TO REACH SMVITM ?

It is about 12 kms from Udupi and 60 kms from Mangalore and is well connected to all district Head quarters by road.

ABOUT THE WORKSHOP

The objective of the workshop is to provide an insight to low power microcontrollers, introduction to MSP430 microcontroller and its application. The MSP430 is a mixedsignal microcontroller family from Texas instruments. Built around a 16 bit CPU, the MSP430 is designed for low cost and specifically low power consumption embedded applications.

The workshop will provide an exposure to MSP430 specification, architecture, fundamentals of programming and implementation with hands-on sessions and demos by the experts from, M/s Advanced Electronics Systems, Bangalore.

ABOUT THE DEPARTMENT

The Department has eminent and motivated faculty members having a vast experience in their field. The Department has a well-balanced workforce having experience in academics and in Industries. The Department has well equipped laboratories.

Every field works effectively only with the use of electronics and communication. The engineers / scientists thus need to prepare themselves to be able to work in such an environment with a mixture of new and old technology. In view of these realities, the Department of Electronics and Communication Engineering has envisaged to prepare the students with innovative and skilful approaches. The students are encouraged and motivated to take up challenging projects in technology. The Department is also arranging selected talks by distinguished persons and adjunct faculties regularly with the view to update the students with the latest education and technology and making them industry ready.

WHO CAN ATTEND ?

The workshop is open to faculty of academic institute and research scholars in Electronics, Electrical and Tele communication branches of engineering. Participation will be confirmed by email on first-come, first-serve basis.
