Suggestions to improve the overall teaching – learning experience

21. Give your suggestions to improve the overall teaching – learning experience in the institution.

51 responses

more industrial visits and technical workshops from industrial resource person will help students gain more practical knowledge (Learn about existing and latest machines in the industry, how they work etc) which can be done with the help of references from staff as well as maybe alumni.

Assignments can be done in the form of online quiz or mini project instead of offline written work.

No suggestions as I love my college and it's the best ♥

By involving more Practical illustrations

None.They are already doing an amazing job.

Nothing.

Concentrating on practical learning

It was good.The usage of projectors or any visual devices really help us to learn it would be great if teachers of every subject make use of that.
