ABOUT THE COURSE

'C' being a widely used and a fundamental programming language is very much necessary for a student in the engineering domain to face the interview successfully.

This is a procedural programming language. It was initially developed by Dennis Ritchie between 1969 and 1973. It was mainly developed as a system programming language to write operating system. The main features of C language include low-level access to memory, simple set of keywords, and clean style, these features make C language suitable for system programming like operating system or compiler development.

Learning C programming has lot of benefits, but the foremost thing in which it helps is to understand the underlying architecture of how things work? Why the programming language is important in relevance to corporate world and how can we tackle problems related to studying C.

So, Dept. of Electronics and Communication of **SMVITM** for the benefit of all the students who will be appearing for the campus placements 2021 has made an attempt to give the basic insight on this Programming language.

COURSE CONTENTS

Module	Topics	Duration
1	Introduction to C, Boolean data types, Control statements, Preprocessor directives, IO functions	10hrs
2	Arrays, Literals in C, IO strings, Macros and Precedence of operators, NULL Pointers, Dangling pointers.	10hrs
3	Program without main, Pre-processor Directives and header files, Operators in C, Strings, Switch and Typecasting	10hrs

COURSE OUTCOME

CO No.	At the end of the course, Students will be able to	Bloom's Level
CO1	Understand and apply Boolean data types, Control statements, Preprocessor directives, IO functions in C programming.	L3
CO2	Understand and apply Arrays, Literals in C, IO strings, Macros and Precedence of operators, NULL Pointers, Dangling pointers in C programming.	L3
CO3	Understand and apply Pre-processor Directives and header files, Operators in C, Strings, Switch and Typecasting in C programming.	L3

Cognitive levels as per Bloom's Taxonomy: L1-Remembering, L2-Understanding, L3-Applying, L4-Analyzing, L5-Evaluating & L6- Creating

SMVITM, Bantakal

Dear Sir,

Sub: Letter of Appreciation

This is to place on record my sincere appreciation and compliments to Mr. Ranjith Bhat for conducting an Value Added Course on "Corporate C" held between 08/11/2020 to 19/12/2020 in the institute premises for the benefit of students. The course went on well and received much appreciation from the students.

We look forward to your continued support for the similar events in the days to come.

Thanking you

With best regards

Sachin S. Bhat
