HEI Claim for Metric 2.1.1

HEI request to claim for metric 2.1.1:

The institute has good admission record until 2018, but since 2019, due to more job opportunities in IT related branches; most of the students preferred joining IT related course than core courses like Civil and Mechanical Engineering. Hence the admissions to core branches like Mechanical and Civil Engineering badly hit in most of the institutes. This has affected our institute too. During 2018-19 and 2019-20, the ratio of core courses to IT courses was 2.5:1; the seats of core courses remained vacant whereas the seats in computer science course were almost full. In the year 2020-21, the admissions were hit to some extent due to the COVID pandemic. However, by the time 2021, the policy of AICTE to sanction the new courses were relaxed and permitted to add IT related courses by reducing the intake of core courses. The institute made use of this opportunity and two IT courses viz, AI-DS and AI-ML with 60 intakes each were added by surrendering 120 seats of Civil and Mechanical Engineering. This decision of the institute helped a lot to improve the enrollment ratio.

The above observations are very much reflecting in the table given below.

2019-18	19	60	25	120
2018-19	23	60	12	120

The HEI request to consider the admission status against the sanctioned intake and asserts to evaluate only for the last two years, 2021-22 and 2022-23.

$$\text{Enrolment percentage} = \frac{\text{Total number of students admitted during last five years}}{\text{Total number of sanctioned seats during last five years}} \times 100$$

$$\text{Enrolment percentage} = \frac{791}{960} \times 100$$

Enrolment percentage =82.40 (considered only for the last two years, 2021-22 and 2022-23).

A total of 77 students have been admitted to the institute through lateral entry. (Excluded for percentage calculation)
