

Criteria 2- Teaching- Learning and Evaluation

Key Indicator 2.3 Teaching- Learning Process

Metric	Description
2.3.1 QIM	2.3.1 Student centric methods, such as experiential learning methodologies are used for enhancing learning experiences.

Experiential learning at is a dynamic educational approach that integrates theory with hands-on experiences. Through various activities such as internships, industry projects, lab sessions, and field visits, students engage directly with real-world challenges and scenarios. SMVITM fosters partnerships with community organizations to provide students with diverse experiential learning opportunities. Faculty members play a crucial role in guiding and mentoring students throughout their experiential learning journey, facilitating reflection and learning from their experiences. Overall, experiential learning at SMVITM prepares students to excel in their careers by equipping them with practical skills, critical thinking abilities, and a deeper understanding of their field of study.

The document reveals the institute's adopted process for enhancing teaching and learning through experiential learning.
