

Criteria	Criteria 2- Teaching- Learning and Evaluation
Key Indicator	2.3 Teaching- Learning Process
Metric	2.3.1 Student centric methods, such as Field Visit used for experiential learning

FIELD VISIT

Field visits are like stepping stones for building civil engineers, leading them from the theoretical realm to the tangible world of construction. On-site experiences reveal how materials come together, the intricacies of components, and the building processes.

Civil Engineering students of SMVITM compulsorily attending field visit trip to enhance their experiential learning. They gain knowledge of real problem facing during construction as well as they learn about overcoming these problems.

This document reveals the process conducted by the institute to enhancing Teaching learning through field visit.

Dear Sir,

Sub: Requesting your permission for field visit to Signature apartments construction site.

Greetings from Shri Madhwa Vadiraja Institute of Technology & Management (SMVITM), Bantakal.

The students of Civil Engineering of our Institute are interested in visiting Signature apartments construction site at Bannanje site, Udupi. Kindly give us permission to visit the site on 13th April 2023 (Thursday). The Approximate strength of students accompanied by faculty will be 35. The list of faculty/students will be submitted to the concerned official during the visit. We kindly request you to permit the students and faculty to visit the above-mentioned project sites to help them in enhancing their practical knowledge.

Hope you will kindly do the needful and oblige.

Thanking you,

With Regards,

Activity Report

Academic Year	2022-2023
Name of the Program	"Field Visit"
Date	13 th April 2023
Target Audience	Students
Resource Persons	Er. Roshan S Kotian (Design Engineer – Alumni 2011-2015) Site Engineer –Mr. Sharath & Mr. Harish (Alumni – 2018-22)
Number of Participants	33

The Department of Civil engineering of Shri Madhwa Vadiraja Institute of Technology, in association with Entrepreneurship development cell & STHAPATI organized a "Field Visit" to Signature apartments, Bannanje site, Udupi construction site on 13th April 2023. In the construction site, residential apartments building pile foundation construction was in progress. The Site Engineer Mr. Sharath & Mr. Harish explained the soil condition and the requirement of pile foundation. Using structural drawing the detailing of reinforcement of pile foundation was explained in detail.

The Students verified the reinforcement details for the pile foundation. In the site the students properly checked diameter of bars, spacing of tie bars and longitudinal bars. The students checked the binding wire connection provided by the laborers. The students thoroughly crossed verified structural drawing and detailing of reinforcement of pile foundation. The slump test was conducted on site for the RMC mix by the students and the slump found had good workability. Students also calculated the quantity of concrete required for a pile. The students got excellent experience of evaluating the work progress, quantity and quality of work.

The students reported that works progress is good. The quantity and quality of work are as per the standards and laborers are preparing the reinforcement as per the structural drawings.
