LANGUAGE LAB

A language lab is a specialized environment equipped with audio and visual technology. Its purpose is to facilitate language learning. SMVITM students uses language lab with equipped computers microphones, headphones, video screens and other tools. These labs transform passive language classes into active, speaking-based learning environments, allowing students to practice and improve their language skills. Language labs provide an interactive and engaging space for students to learn and practice listening, speaking, reading, and writing. They reinforce classroom lessons and boost comprehension.

This document reveals the process conducted by the institute to enhancing Teaching learning through language lab.

eWriteRight has designed a customised online/offline course as per the VTU syllabus. As per the syllabus, we have structured the course into five modules. Each module contains submodules based on the subheadings mentioned in the syllabus. We have paid utmost attention to ensure that the content is interesting and piques the interest of the student. We have made use of cartoons, social messages, engineering-related sentences and vocabulary, visuals from movies, quizzes on remarkable facts and such like.

The course is truly revolutionary in approach and absolutely unlike a traditional paper-based textbook.

Why eWriteRight?

Open any "technical" communication textbook. Does it really cater to the requirement of an engineering student in terms of teaching engineering vocabulary and making him/her proficient in writing scientific English.

We are rightly placed in doing so due to our unique professional experience. Our parent company-Trans Infopreneur Inc.-is a translation company. We have immense experience in translating documents in engineering, legal, general and other domains into English. Over the years, we have built up a vast repertoire of specialised vocabulary and sentences. We have made use of our rich technical communication experience to teach engineering students the basics of the same.

The only course which covers ALL the topics as per VTU syllabus in one package. Prescribed textbooks cover the syllabus partially.

Features of Technical Communication and More ... (VTU)

A. Server License with Dashboard (Offline)

Requirement: No Internet (except for registration); product will be loaded on college server.

- Student can use the product only on the college computers on which the licenses are loaded.
- Can be installed in English Lab.
- Useful for students who do not have computer at home.
- Students can login on any computer in the Lab/Library/Campus etc. where the college LAN works.
- Faculty can check student progress and marks on Admin dashboard.
- Students can check their progress on their individual dashboard.

B. Individual User License (Online/Offline)

Requirement: Internet is required for Online license.

- In case of Online license, the student can login from his/her computer anywhere, anytime.
- In case of Offline license, the student can load the product only on one computer (PC or Laptop).
- Marks will be stored on the students' dashboard. He/She can send a PDF of the marks scored for any Module to the Faculty.

C. Server License without Dashboard

Requirement: LAN. These license can be installed in the college English lab.

- Student can use the product only on the college computers on which the licenses are loaded.
- Useful for students who do not have computer at home.
- Students can login on any computer in the Lab/Library/Campus etc. where the college LAN works.
- Students marks or progress on the Module will not be stored.
- Students can attend the quiz and check if they have answered the question correctly or not, but marks and progress will not be stored for future reference.
- Extremely cost-effective in case the college does not wish to buy individual license per student. On the other hand, lack of dashboard would imply that student performance cannot be monitored effectively.
- Faculty supervision is a must.
- For testing purpose we can design additional exercises which can be evaluated by the faculty.

Registration Requirement

We will require complete name, mobile no. and email ID of students for registration purpose (for individual license).

No details would be required for licenses bought for the English Lab/Library.

Difference between with and without dashboard licenses

With dashboard	Without dashboard
Student logs in using his/her login.	Student doesn't login using his/her login. College computer login has to be used.
Student scores are stored under his/her dashboard. Data is stored under college server (intranet).	Student scores cannot be stored.
Dashboard scores can be used for part of internal assessment.	Other means of internal assessment has to be organised. Suggestion: Use following Cambridge books for internal assessment: <ul style="list-style-type: none"> • Essential English Grammar Supplementary Exercises With answers • English Pronunciation in use Elementary
Faculty supervision is minimal.	Faculty supervision is required.

LANGUAGE LABORATORY I FOR THE 'TECHNICAL ENGLISH-I' COURSE prescribed for

FIRST SEMESTER B.E. [All branches and disciplines]

Academic Year 2019-20

Lab Practice No.	Description
1	Technical Communication, Grammar and Essentials of Language Skills Lab
2	Phonetics, Intonation and Pronunciation Skills Lab
3	Parts of Speech learning and practicing Lab
4	Language Structures (Words, Syllables, Tenses and Phrases) Lab

DESCRIPTION OF THE LABORATORY PRACTICES

Lab Practice 1: Technical Communication, Grammar and Essentials of Language Skills Lab

In this lab, students are made to enact a situation, group-wise. When one group is in action, the other groups are made to watch and record the following parameters of communication:

- (i) Pronunciation of speakers with respect to clarity and Indian Language influence, Grammatical mistakes
- (ii) Content- of the messages/talks with respect to clarity, to what extent formal, professionalism
- (iii) Nature- of communication
- (iv) Structure- sequence of elements/pattern brought out while communicating
- (v) Method –whether innovative/ usual pattern
- (vi) Audience- Level with respect to grasping of the content
- (vii) Language-Level of the speaker

Use of oral, written and non-verbal features of communication is highlighted in this lab. Barriers to the Communication with respect to the two-way communication are highlighted and discussed.

Lab Practice 2: Phonetics, Intonation and Pronunciation Skills Lab

In this lab, students are introduced to the 'International Phonetic Alphabet' [IPA], Methods to transcribe words and sentences, (i.e., using standard symbols for standard sounds) are taught. Categories under Vowels, Diphthongs, Consonants, Consonant clusters are presented, students are made to work out the exercises involving these. **[2hours]**

Lab Practice 3: 'Parts of Speech' learning and practicing Lab

The purpose of the lab is to make students speak or write the English language grammatically correct, emphasising the use of right kind of parts of speech. Sentences constructed wrongly with respect to the parts of speech are posed to the student groups – they are required to identify the errors. Uses of 'Modals' and 'Determiners' are also included. **[2hours]**

Lab Practice 4: Language Structures (Words, Syllables, Tenses and Phrases) Lab

In this laboratory, students are given exercises to understand different kinds of words and sentences, strong and weak words, phrases, idioms and essentials of sentence building. Students are given exercises to form a set of sentences- these sentences are analysed.. All the types of tenses are introduced. Subject-verb concord is identified. Exercises involving changing the sentence written in one tense to another tense are taken up. Verbs of Emotion, verbs of Thought, verbs of Senses, verbs of Perception, verbs of Appearance, verbs of Possession, Syllables-etc. are introduced. **[2hours]**

Features of Technical Communication and More ... (VTU)

A. Server License with Dashboard (Offline)

Requirement: No Internet (except for registration); product will be loaded on college server.

- Student can use the product only on the college computers on which the licenses are loaded.
- Can be installed in English Lab.
- Useful for students who do not have computer at home.
- Students can login on any computer in the Lab/Library/Campus etc. where the college LAN works.
- Faculty can check student progress and marks on Admin dashboard.
- Students can check their progress on their individual dashboard.

B. Individual User License (Online/Offline)

Requirement: Internet is required for Online license.

- In case of Online license, the student can login from his/her computer anywhere, anytime.
- In case of Offline license, the student can load the product only on one computer (PC or Laptop).
- Marks will be stored on the students' dashboard. He/She can send a PDF of the marks scored for any Module to the Faculty.

C. Server License without Dashboard

Requirement: LAN. These license can be installed in the college English lab.

- Student can use the product only on the college computers on which the licenses are loaded.
- Useful for students who do not have computer at home.
- Students can login on any computer in the Lab/Library/Campus etc. where the college LAN works.
- Students marks or progress on the Module will not be stored.
- Students can attend the quiz and check if they have answered the question correctly or not, but marks and progress will not be stored for future reference.
- Extremely cost-effective in case the college does not wish to buy individual license per student. On the other hand, lack of dashboard would imply that student performance cannot be monitored effectively.
- Faculty supervision is a must.
- For testing purpose we can design additional exercises which can be evaluated by the faculty.

Registration Requirement

We will require complete name, mobile no. and email ID of students for registration purpose (for individual license).

No details would be required for licenses bought for the English Lab/Library.

LANGUAGE LABORATORY II FOR THE 'TECHNICAL ENGLISH-II' COURSE

prescribed for

SECOND SEMESTER B.E. [All branches and disciplines]

Academic Year 2019-20

Lab Practice No.	Description
1	English Vocabulary and Language Proficiency Lab
2	Précis Writing and Paraphrasing Practice Lab
3	Technical Writing and General Essay writing Practice Lab
4	Comprehension and Presentation Skills Practice lab
5	GD and Interview facing Practice Lab

DESCRIPTION OF THE LABORATORY PRACTICES:

Lab Practice 1: English Vocabulary and Language Proficiency Lab

In this lab a set of sentences are taken. These sentences are specially constructed, with one or two words in them, not commonly heard or used. These words are underlined. Students are asked to come out with alternate words without hampering the meaning of the sentence which they handle each time. Second exercise involves replying/ answering 'TRUE' or 'FALSE' for sentences like 'A terrific act is the one that terrifies you', 'An engrossing play is quite boring'.

[2 Hours]

Lab Practice 2: Précis Writing and Paraphrasing Practice Lab

Exercises involve writing Précis of the given passages, Synopsis of a technical paper, summary/abstract of a Paper and Paraphrasing Act. Students are apprised of 7-step ladder to write down an effective précis and need for learning the art of condensation of Paper.

[2 Hours]

Lab Practice 3: Technical Writing and General Essay writing Practice Lab

Each student is made to write a technical paper and also an essay on the topics allotted. Principles involved in writing the 'Introduction' and main body part of the paper are learnt. [The teacher scrutinises all the works and suggests improvements.

[2 Hours]

Lab Practice 4: Comprehension and Presentation Skills Practice lab

In the first part, students are made to understand why reading comprehension is a necessary skill. Varied reading comprehension tasks are dealt with, four reading skills, namely, skimming, scanning, intensive and extensive reading skills are attempted in reading passage.

For the second part, student groups are made and topics of presentation are distributed. Although collectively the group prepares the presentation material, each student in the group presents the topic to the audience- audience can raise questions- group has to give satisfactory replies. Teacher observes and grades the students. **[2 Hours]**

Lab Practice 5: GD and Interview facing Practice Lab

Class is divided into different groups and topics are given for the Group Discussion. Topic to discuss is finalised, so also the Do's and Don'ts of the process. Ranking is given to the Groups with respect to the performance they show. Real time monitoring of the group activities and three various observations by the teacher enables him/her to grade the groups and also enables him/her to give the right suggestions. **[2 Hours]**

Features of Technical Communication and More ... (VTU)

A. Server License with Dashboard (Offline)

Requirement: No Internet (except for registration); product will be loaded on college server.

- Student can use the product only on the college computers on which the licenses are loaded.
- Can be installed in English Lab.
- Useful for students who do not have computer at home.
- Students can login on any computer in the Lab/Library/Campus etc. where the college LAN works.
- Faculty can check student progress and marks on Admin dashboard.
- Students can check their progress on their individual dashboard.

B. Individual User License (Online/Offline)

Requirement: Internet is required for Online license.

- In case of Online license, the student can login from his/her computer anywhere, anytime.
- In case of Offline license, the student can load the product only on one computer (PC or Laptop).
- Marks will be stored on the students' dashboard. He/She can send a PDF of the marks scored for any Module to the Faculty.

C. Server License without Dashboard

Requirement: LAN. These license can be installed in the college English lab.

- Student can use the product only on the college computers on which the licenses are loaded.
- Useful for students who do not have computer at home.
- Students can login on any computer in the Lab/Library/Campus etc. where the college LAN works.
- Students marks or progress on the Module will not be stored.
- Students can attend the quiz and check if they have answered the question correctly or not, but marks and progress will not be stored for future reference.
- Extremely cost-effective in case the college does not wish to buy individual license per student. On the other hand, lack of dashboard would imply that student performance cannot be monitored effectively.
- Faculty supervision is a must.
- For testing purpose we can design additional exercises which can be evaluated by the faculty.

Registration Requirement

We will require complete name, mobile no. and email ID of students for registration purpose (for individual license).

No details would be required for licenses bought for the English Lab/Library.

Difference between with and without dashboard licenses

With dashboard	Without dashboard
Student logs in using his/her login.	Student doesn't login using his/her login. College computer login has to be used.
Student scores are stored under his/her dashboard. Data is stored under college server (intranet).	Student scores cannot be stored.
Dashboard scores can be used for part of internal assessment.	Other means of internal assessment has to be organised. Suggestion: Use following Cambridge books for internal assessment: <ul style="list-style-type: none"> • Essential English Grammar Supplementary Exercises With answers • English Pronunciation in use Elementary
Faculty supervision is minimal.	Faculty supervision is required.

LANGUAGE LABORATORY II FOR THE 'TECHNICAL ENGLISH-II' COURSE

prescribed for

SECOND SEMESTER B.E. [All branches and disciplines]

Academic Year 2019-20

Lab Practice No.	Description
1	English Vocabulary and Language Proficiency Lab
2	Précis Writing and Paraphrasing Practice Lab
3	Technical Writing and General Essay writing Practice Lab
4	Comprehension and Presentation Skills Practice lab
5	GD and Interview facing Practice Lab

DESCRIPTION OF THE LABORATORY PRACTICES:

Lab Practice 1: English Vocabulary and Language Proficiency Lab

In this lab a set of sentences are taken. These sentences are specially constructed, with one or two words in them, not commonly heard or used. These words are underlined. Students are asked to come out with alternate words without hampering the meaning of the sentence which they handle each time. Second exercise involves replying/ answering 'TRUE' or 'FALSE' for sentences like 'A terrific act is the one that terrifies you', 'An engrossing play is quite boring'.

[2 Hours]

Lab Practice 2: Précis Writing and Paraphrasing Practice Lab

Exercises involve writing Précis of the given passages, Synopsis of a technical paper, summary/abstract of a Paper and Paraphrasing Act. Students are apprised of 7-step ladder to write down an effective précis and need for learning the art of condensation of Paper.

[2 Hours]

Lab Practice 3: Technical Writing and General Essay writing Practice Lab

Each student is made to write a technical paper and also an essay on the topics allotted. Principles involved in writing the 'Introduction' and main body part of the paper are learnt. [The teacher scrutinises all the works and suggests improvements.

[2 Hours]

Lab Practice 4: Comprehension and Presentation Skills Practice lab

In the first part, students are made to understand why reading comprehension is a necessary skill. Varied reading comprehension tasks are dealt with, four reading skills, namely, skimming, scanning, intensive and extensive reading skills are attempted in reading passage.

For the second part, student groups are made and topics of presentation are distributed. Although collectively the group prepares the presentation material, each student in the group presents the topic to the audience- audience can raise questions- group has to give satisfactory replies. Teacher observes and grades the students. **[2 Hours]**

Lab Practice 5: GD and Interview facing Practice Lab

Class is divided into different groups and topics are given for the Group Discussion. Topic to discuss is finalised, so also the Do's and Don'ts of the process. Ranking is given to the Groups with respect to the performance they show. Real time monitoring of the group activities and three various observations by the teacher enables him/her to grade the groups and also enables him/her to give the right suggestions. **[2 Hours]**

Features of Technical Communication and More ... (VTU)

A. Server License with Dashboard (Offline)

Requirement: No Internet (except for registration); product will be loaded on college server.

- Student can use the product only on the college computers on which the licenses are loaded.
- Can be installed in English Lab.
- Useful for students who do not have computer at home.
- Students can login on any computer in the Lab/Library/Campus etc. where the college LAN works.
- Faculty can check student progress and marks on Admin dashboard.
- Students can check their progress on their individual dashboard.

B. Individual User License (Online/Offline)

Requirement: Internet is required for Online license.

- In case of Online license, the student can login from his/her computer anywhere, anytime.
- In case of Offline license, the student can load the product only on one computer (PC or Laptop).
- Marks will be stored on the students' dashboard. He/She can send a PDF of the marks scored for any Module to the Faculty.

C. Server License without Dashboard

Requirement: LAN. These license can be installed in the college English lab.

- Student can use the product only on the college computers on which the licenses are loaded.
- Useful for students who do not have computer at home.
- Students can login on any computer in the Lab/Library/Campus etc. where the college LAN works.
- Students marks or progress on the Module will not be stored.
- Students can attend the quiz and check if they have answered the question correctly or not, but marks and progress will not be stored for future reference.
- Extremely cost-effective in case the college does not wish to buy individual license per student. On the other hand, lack of dashboard would imply that student performance cannot be monitored effectively.
- Faculty supervision is a must.
- For testing purpose we can design additional exercises which can be evaluated by the faculty.

Registration Requirement

We will require complete name, mobile no. and email ID of students for registration purpose (for individual license).

No details would be required for licenses bought for the English Lab/Library.
