## CODING CHALLENGES- HACKATHONS/ IDEATHONS

Ideathons and hackathons are exciting events that provide students with valuable opportunities and learning experiences. These events encourage students to brainstorm and propose innovative ideas. Participants collaborate to solve real-world problems, create new products, or address societal challenges. Ideathons foster creativity by allowing students to think outside the box. Participants learn to analyse problems and devise practical solutions. Students interact with peers, mentors, and industry experts. Winning ideas may lead to startup ventures.

SMVITM conducts such activities every year to encourage the students. Which are intense coding competitions where students build software solutions within a limited timeframe (often 24 hours/48 hours). Indeathon give learning platform to generate new Idea.

This document reveals the process conducted by the institute to enhance problem solving methodologies by participating in code challenging activities.

The competition starts at 11AM on June 2nd and ends at 11AM on June 3rd.
1. In the first step, all the teams will commit the available code to github, if they have any.
2. Next they should start implementing new features and commit the code to github.
3. A team of volunteers will monitor the amount of new code written based on these commits.
4. There will be 4 rounds of evaluation with 2 online and 2 offline evaluations. The time and details are in the next section.
5. Each team is assigned a mentor (our old students) who will give technical guidance to the teams. They will also give some suggestions and will submit feedback about the teams to you. The mentoring is scheduled from 6pm-8pm, after the first round of evaluation.

**Role of evaluator:**
For each theme, there will be an evaluation panel of 3 members. Out of these 3, two panelists will be our faculties and one from Niveus Solutions.
1. First evaluation is scheduled at 4PM on June 2nd in college. We request you to come to college at 3.50pm on June 2nd for the first evaluation. Students will present their work. You should evaluate their work based on the criteria mentioned in the evaluation sheet and also suggest some major modifications/ new feature implementations at this stage. This completes the first round of evaluation.
2. 2nd round of evaluation will be online evaluation preferably at 10.00pm. (we can adjust the timing according to panelists preference). Here students will present their progress and panelists will award marks according to the criteria in the evaluation sheet..
3. 3rd round of evaluation will be again online on June 3rd at 6.00am or 7.00am (based on panelists preference). Here, again progress will be monitored and marks will be awarded according to the criteria in evaluation sheet.
4. 4th round will be final evaluation at 11am in college. Here, students will present their work to panelists. Panelists will choose top three winners based on their evaluation, mentor's comments, and amount of code committed to github.

**The valedictory function and prize distribution is scheduled at 12.00pm on June 3rd followed by lunch. We request you to stay back for the valedictory function and have lunch with us in college.**

Dear sir,

Thank you for accepting our invitation to be the evaluators for Hackothsava-23.

**An overview of the event:**
This is a 24 hour state level offline hackathon which will be conducted in college campus from June 2nd 11am to June 3rd 11am. Applications were invited from students for two themes: "Transformative education" and "sustainable industrialization". We have received 48 applications altogether and in the first round of screening, we have shortlisted 11 teams under transformative education theme and 10 teams under sustainable industrialization theme based on the submitted synopsis. These teams will be competing in the final round from June 2nd to 3rd.

Each theme will have a separate evaluation panel with teaching and industry professionals. The first winner in each theme will get a cash prize of 25,000/-, 2nd winner will get a cash prize of 15,000/- and third winner will get 10,000/- with total prize money worth 1,00,000/- .

**Flow of event:**
The competition starts at 11AM on June 2nd and ends at 11AM on June 3rd.
1. In the first step, all the teams will commit the available code to github, if they have any.
2. Next they should start implementing new features and commit the code to github.

The peer learning webinar "Hakopedia – Everything you need to know about Hackathon" was organized by the Department of Computer Science and Engineering in association with the ISTE Student Chapter,SMVITM,Bantakal on 28th November 2020, from 3:30 pm to 5:30 pm for the benefit of SMVITM students.

Raunak Choudhary from 7th semester CSE delivered the welcome address. Sushmitha N from 5th semester CSE introduced the speakers. Deepak Nayak and Harikrishna R from 7th semester CSE were the speakers from X to Infinity Team.

The speakers gave an insight to the participants about what hackathons were, shared some tips for hackathons, informed about various tools that could be used in a hackathon, and answered all the questions which the participants had asked during the session. The speakers also shared their past experiences of participating in the hackathons.

The event helped the participants to have an insight about the concept of Hackathons and they interacted with the speakers enthusiastically. At the end of the webinar the vote of thanks was delivered by Avanthi V Rao from 3rd semester year CSE. Shrutha V Bhat from 3rd semester CSE was the event moderator. Bhargavram Udupa T from 3rd year CSE handled the registrations and feedbacks. Mr. Chethan R Institutional Coordinator ISTE Faculty Chapter, Ms. Sneha N S and Mr. Deepak Rao M faculty from Computer Science Department played a major role in the smooth conduction of the program
