OBSERVATIONS/RECOMMENDATIONS

Twelve Teams of sixteen members each were grouped right in the beginning of the workshop and through team building activities, a sense of togetherness and team spirit was raked up. Resource personnel from industry had interactive sessions on 'Applications of Drones', 'Handling Social Media on a professional & personal note', 'Essential Presentation Skills for Engineers' laced with value building concepts and act ies in each of the sessions. At the heart of the program being to implant a social/service bent of mind, a session Social Innovation Program was chalked out, coupled with a real time visit to local social/religious/academic/commercial enterprises, trying to capture a commoner's challenge in their respective field and eventually converting it into an engineering problem statement and working over the same as an engineering challenge.

VALEDICTORY CEREMONY

The twelve teams which took part on all three days of the 'Jagruthi' Event were judged on various parameters like punctuality, creative flag making, persistent problem solvers, ingenious presentations, team work, best Vlog. Sri Venkat, from Shell R&D was the chief guest of the function and he did inspire the students on engineering outside college frameworks. Sri Rathna Kumar & principal of the institute Sri Thirumaleshwara Bhat took part in the valedictory ceremony and inspired the students to take up engineering beyond the college walls.

W FORWARD

- Social Innovation Program SIP:

The teams are to be guided to start with the empathizing with the client to conceptualizing a concrete challenge, defining the challenge and validating the same. The idea is to guide the teams through to Design Phase by the end of second year.

- Implementation Phase: The hardware/software implementation of the said design projects would be taken up only after appropriate deliberations, in competence/ finance/ logistics perspective.
