	<p>the absentees of first IA by the respective faculty members by discussing with their respective HoDs by before March 5 th. However, the following points need to be noted down by the faculties before giving such tests.</p> <ol style="list-style-type: none"> 1. Covid test report needs to be submitted by those students who had claimed covid for their absence. 2. Those who had a fever (not covid) are requested to submit the medical certificate. 3. Out of the two question papers prepared by the faculty member the one which was not selected for the test can be given for the absentees. Also, decided to remove the choices. So, they have to write all the mentioned questions compulsorily. (So the number of absentees in the forthcoming tests can be avoided considerably) 4. The tests for a particular subject must be conducted simultaneously for all the section students in the first hour itself. Afterwards, they can attend the regular classes. 5. Request the concerned faculty members to give prior information about the test to the first-year coordinator through the mail. 	
4	<p>Some other suggestions were given by the faculty members to be considered</p> <ul style="list-style-type: none"> • Finishing the lab exams by the end of February (Physics and electrical) so the lab hours can be engaged to complete the theory classes. • Finishing the chem/PSP labs immediately after II IA. • Giving the same IA question paper and asking the students to write the answers to improve the students capacity to face the semester exam. • Remedial classes for the slow learners need to be conducted by the respective faculty members. Dear Colleagues

Further to the discussion on the performance analysis, I suggest the following action plan to be initiated from the first year teaching coordinator with the support of all faculty members teaching first year courses.

- Handpick the poor performer in each class
- If a student is unable to perform due to personal issues, then the SWO, Concerned TG and first year coordinator shall discuss with such students individually. If the strength of such students is too large, involve the trained counsellors (Mrs. Shashikala, Mrs. Vidya Bhat, Mrs. Deepika, Mr. Deepak Rao, Mr. Karthik..are the trained counsellors).
- If the student failed to perform due to lack of interest - Inform the same to the parents by the respective TG. Also discuss the issue with the parents
- If the student has put effort but couldn't score well - motivate such student by the TG and First Year Coordinator.
- Poor performance due to any other issues, other than the above - bring it to my notice. I will take care of it.

Also address the following request from the students:

Plan and initiate the assignments: A proper assignment shall improve the learning of students. The students shall answer the assignments with proper thinking rather than copying from others. Hence all the subject teachers shall sit together and plan the assignment questions. A structured assignment will fetch better results. Kindly plan the assignment process and use the assignments to improve the learning of students.

Computer Science & Engineering department 5th semester Result Analysis meeting was conducted on December 19 2022, where the following topics were discussed

- Poor performance of students in various subjects were discussed
- From the faculty feedback, it was observed that students are not taking the subjects like environmental studies very seriously. Also, as the concentration of final year students is drifting towards placement, it is affecting the academic performance.
- It was suggested for faculties to have more one to one sessions with under performers to understand their difficulties. Also, TGs were informed to discuss the matter with the parents of a few under performers.
- Also for programming subjects, it was decided to give more assignments in hackerrank or hackerearth platform.
