The Students of Department of Civil Engineering of Shri Madhwa Vadiraja Institute of Technology and Management, Bantakal in association with the Sthapati Student club organized a technical trip for 5th and 7th Semester students to Dharmasthala Sewage treatment plant and Neria Mini Hydel power plant on 23rd December 2021. There were 55 students with 4 faculty members.

Estate Officer Mr. Balakrishna of Dharmasthala shared is 40 years of experience in the agriculture and addressed the students on how the organic manure is generated from the vegetable and food waste from Temple and nearby guest houses which enhance the availability of micronutrient without harming the soil with toxic fertilizers. He stressed upon the dependability on agriculture was essential during the pandemic in the past couple of years. Information about varieties of worms converting all the food wastages and wet wastes was given to the students. Supervisor Mohan explained the working of sewage treatment plant and how are they supplying the whole agriculture field in the vicinity with the automated recycled water system.

Later students visited Neria Mini Hydel power station at Nidle village, Belthangady Taluk to learn about the working of Kaplan turbines and power generation with the water pressure and also usage of Gantry crane during maintenance works of generators and turbines.
