Detailed report on the activity

The EDC cell had organized an industrial visit to Chaamundeshwari Stone crusher unit at Hampankatta Phalli and Stone cutting unit at Karkala on 17th September 2019. The trip was organized for second year students of Civil engineering department. In the first trip students have visited aggregate manufacturing unit, they have learnt how quarrying process will takes place, starting from blasting, precautionary measures before blasting and detonators used for blasting purposes. Later they were taken to the control unit of the crusher and conveyor belt and its working sequence. Students have also learnt how the primary and secondary crushing unit works for the manufacture of various sizes of aggregates. Detailed operation of M-Sand manufacturing unit was demonstrated by the proprietor Mr. Chandrashekar Shetty and interacted with the students

Second visit was to Mahalingeshwara stone works at Karkala, where students have witnessed various types of stone cutting machines and different types of stone surface finish and carvings.

Total 29 students from second year civil engineering students have benefited from this excursion.
