ACTIVITY PROPOSAL

Name of the student Coordinator	:	K Prathvi Rao
Number of students Involved	:	5
Academic Year	:	2022-23
Activity Title	:	To create awareness about Cyber Crimes and Cyber Security among people in Rural areas
Activity held under (Department/Cell)	:	Computer Science and Engineering
Activity held at	:	Kallianpura and Badanidiyoor
Activity Dates	:	27-10-2022 to 29-10-2022
Total Duration needed	:	80 hours

Title: Creating awareness about Cyber Crimes and Cyber Security among people in Rural areas.

Objectives of the proposal :

- To create awareness about Cyber Security and Cyber Crimes.
- To inculcate the sense of awareness among the people in Rural areas about the different types of Cyber Crimes.
- To guide the people to take the right decisions and educate them about how they can handle such situations effectively.

Background of the proposal :
To promote this plan

In addition to Internet's many benefits, it increases user's exposure to various forms of crime. Indeed, it has given rise to certain criminal offenses that were unimaginable or didn't exist in the past. Levels of privacy have decreased substantially as the Internet-using public's willingness to publish personal information has increased.

Rural people should be made aware of the threats to their identity. The people who are unaware of the circumstances find it very difficult to handle such situations and take wrong decisions. So, creating awareness about the different types of Cyber Crimes will guide them about how they can handle such situations in a right way.

People in rural areas who hesitate to use the existing technologies will confidently use them once they are aware about Cyber Security measures.

Principal
SHRI MADHWA VADIRAJA
INSTITUTE OF TECHNOLOGY & MANAGEMENT
Vishwothama Nagar, Udupi Dist.
BANTAKAL - 574115

Description of the proposal :

We have come up with the initiative of conducting an awareness program in the above mentioned localities to provide information regarding the different Cyber crimes and educate the rural people about the initiatives they can take to prevent the Cyber crimes and choose effectively while handling such situations.

Milestones with time schedule & work plan:

Conduct an awareness program in the Gram Panchayats of the above mentioned localities, educate the Rural people about the prevention of cyber Crimes and guide them on effective decision-making during such situations. The group of five will be allocated with different tasks like ppt. making, pamphlet distribution, presentation during the program, etc. accordingly.

Deliverables of the project :

 • Through raising the level of awareness among Rural people now, we will be moving toward the creation of an information-secure culture in the future

 • Educating and guiding the people in Rural areas helps them to confidently use the Internet and other technologies.

 • Video and photo proof of the program.

ACTIVITY SUMMARY

Student (coordinator) name: Chandana   **USN:4MW20CS018**

Title: Basics of C programming.
Activity held at: GHS Upoor & Shri Narayana Guru English Medium High School
Objectives: • To educate students about the different career opportunities in computer science and coding. • To guide students about the basic concepts of c programming. • To instil in them the basics of coding so that they identify their interests accordingly.
Description: Our team has come up with an initiative of providing basics of C programming to 10th std and below students of the above-mentioned school, so that the students understand the basics of coding and identify their interests preparing them to choose the right courses for future studies and careers and it allows them to discover who they are, what they like to do and what they do best!

SMVITM

DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING

Outcomes:

1. The goal is to help the students understand the basics of coding (C programming).
2. The goal is to help students get a gist of how coding works and choose a right career that they are interested in.
3. This is to not only help students make decisions that they need to make now, but also to give them the knowledge and skills they need, to make future career and life decisions.

Learning from this activity:

1) We learnt how students respond to peer-to-peer learning
2) We learnt how to work in co-ordination.
3) We learnt how to complete a task in an efficient way.
4) We developed skills like communication, and patience when teaching to students.

ACTIVITY SUMMARY

Student coordinator: Bhoomika K Baadkar   **USN:4MW20CS016**

Title: Spoken English and Interpersonal Skills

Activity held at: [Kerwadi , Virja, Mallapur, Katar] -Karwar Tq

Objectives:

1) Handle with influence awkward situations in a graceful manner
2) Prepare tools and checklists for the obstacles confronted when working with difficult personalities
3) Learn the use of effective first impressions during meetings
4) Make to improvise on your body language, communication, and listening skills
5) Learn to manage stress and stressful work conditions and situations
6) Understanding the Why and How of people behaving and reacting to others
7) Demonstrate a greater level of personal control and increased positive results.
8) Spoken English helps to be fluent in English where people are lacking in facility to learn the language.

Description: We thought to teach school students of village at Karwar some basic English as they don't get proper English education and help them learn true and clear diction of English and their meaning . And as interpersonal skills are important in all being, we thought to give light to these thought also that what are interpersonal skills and why it is important for us. Totally the session were for the help of students betterment.

Outcomes:

1. Students were able to understand the proper meaning of word and could be fluent in at least basic English and proper way and time to use words.

2. Interpersonal skill developed some knowledge in them regarding harmony,patience,body language etc. which students enjoyed knowing basic skills

Learning from this activity:

1) We learnt how to maintain so much people at a time

2) We learnt how to work in co-ordination

3) We learnt how to complete a task in an efficient way and given time

4) We learnt how to teach other person effectively

Vishwothama Nagar, Udupi Dist.

DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING

ACTIVITY SUMMARY

Student (coordinator) name: Aninditha   **USN:4MW18CS007**

Title: Awareness on cyber law and cybercrime.

Activity held at: Innanje, Shankerpura, Subhash Nagara, Katpady and Bantakal.

Objectives:

1. To understand the level of digital literacy among people and to know the extent of utilization of the internet among them.
2. To analyze the level of awareness about cybercrime and cybersecurity among people.
3. To provide information on protecting against and preparing for cyber threats as well as detecting, responding and recovering from such threats and challenges.

Description:

Over the course of the activity, we have managed to cover over 138 houses (including shops). As part of the survey, a questionnaire was prepared that included basic questions like "Do you own a smartphone?" to more inquisitive questions like "Are you aware of response centers to reach out to, in the event of a fraud?". The questions were selected taking into consideration that not all households might have people who are technically active.

We began the survey by asking people their name and age and proceeded to demonstrate certain scenarios of possible frauds (like social media fraud or bank fraud) and asked them if they had ever undergone a similar situation. The responses from the interactions were recorded using excel sheets.

Based on the degree of awareness exhibited by the respondee, the team members explained the precautions to be taken in order to prevent being victims of cybercrime. The nature of crime that can be committed online and the steps taken to approach concerned authorities in such a situation were discussed with the survey takers.

At the end of each survey session, an acknowledgement was taken. We also clicked pictures at several houses only after obtaining the participant's consent.

SMVITM

DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING

Outcomes:

A basic understanding of the extent of knowledge/information of the participants regarding cyber law and cybercrime was obtained. When inquired about their experiences concerned with cyberspace, several people came forward to share stories of theirs or of people they knew who had been victimized.

The survey was centered to understand the extent of awareness of the participants regarding matters like cybercrime and cyber law. Most survey takers were within the age bracket of 20 to 65, occasionally with people over the age of 70. Based on the interactions with the people and analysing their responses, we have made the following observations:

- Over 75.3% of the participants make use of smartphones and nearly 70.28% of them are active users of the internet (mostly social media such as Facebook, WhatsApp).
- Over 59.42% of the participants owned credit/debit cards and performed online transactions.
- Only 19.5% of the participants were aware of guidelines and protocols to follow in the event of cybercrime. Most people claimed to receive assistance from their children or relatives.

The findings of the survey were put into a graph to give a clear understanding of the level of awareness among the participants. It is as below:

Survey Graphical Report

Use smartphone — 104 / 34
Perform Online transactions — 51 / 87
Use credit/debit cards — 82 / 56
Use Social media — 87 / 41
Received scam messages — 81 / 77
Aware of platform to report cyber crime — 27 / 111

Learning from this activity:

1. The importance of incorporating cyber awareness programs so that people can avoid being victims of cybercrimes.
2. Soft skills like social interaction, public speaking/communication and teamwork.
3. Technical skills like survey-taking, data analysis and report preparation.

DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING

ACTIVITY SUMMARY

Student (coordinator) name: Kavya Rao

USN: 4mw18cs036

Title: Educating people about waste segregation and digital payment methods.
Activity held at: Inanje , Shirva , Manchakal , Katapadi
Objectives: 1. To separately store recyclable material for reuse and to store hazardous waste. 2. To ensure that waste which can be processed for recovery of material and energy does not become co-mixed with undesirable elements. 3. Improve the ease of conducting card/digital transactions for an individual. 4. Reduce the risks and costs of handling cash at the individual level.
Description: The world has been moving towards all things digital for some time now. However, the year 2020 put into perspective the dire need to adapt to digital technology as soon as possible. This adaptation happened almost instantly with the lockdown coming into effect, especially digital payment in India. Waste sorting is the process by which waste is separated into different elements. Waste sorting can occur manually at the household and collected through curbside collection schemes, or automatically separated in materials recovery facilities or mechanical biological treatment systems.
Outcomes: 1. Exhibit basic knowledge about waste management and segregation of waste disposal. 2. Provide information about advancing technology in India regarding digital payments. 3. We got information about how much people know about current waste segregation methods and technology improvement.

SMVITM

DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING

Learning from this activity:

1. Improved communication skill .
2. Gathered information about what people know about waste segregation and how much inputs we could provide.
3. Got to know how people react and support students.

ACTIVITY SUMMARY

Student (coordinator) name: Kripashree Bhat   **USN: 4MW18CS038**

Title:

Activity held at: T.A.Pai E.M.H.S. Kunjibettu, Udupi.

Objectives:

1. In this workshop, the participants will be introduced to Python from scratch.
2. They will be able to write loops, create functions and use conditions to solve complex problems.
3. Participants will gain knowledge of Python Programming and learn to develop projects on their own.
4. The workshop will help them grow their knowledge of coding and all of these fundamentals apply to other real-world programming languages too.

Description:

The course is designed to provide an introduction to the Python programming language.

The focus of the course is to provide students with an introduction to programming, I/O, and visualization using the Python programming language. Python Workshop is great for teaching coding fundamentals through a real-world programming language. There are five core concepts that the student will learn that will help build a solid foundation in Python :

1. Data Types

2. Variables

3. Functions

4. Loops

5. Modules

Principal
SHRI MADHWA VADIRAJA
INSTITUTE OF TECHNOLOGY & MANAGEMENT
Vishwothama Nagar, Udupi Dist.
BANTAKAL - 574 115

During the workshop, the participants will learn how to use Python's loops, conditional

SMVITM

DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING

programming, and more. They'll also explore the graphical capabilities of Python too, creating some applications and solving real-world problems through programming.

Outcomes:

1. Python is one of the most important languages in the world of computer programming.

2. This is because of its widespread application in the fields of Machine Learning, Data Science, and Data Mining.

3. The outcome of this workshop will enhance the knowledge of students in the field of Python Programming.

4. This workshop will help the students to learn Python from scratch and it will help them grow their knowledge of coding and other fundamentals.

5. They will be able to write loops, create functions and use conditions to solve complex problems.

Learning from this activity:

1. Students will gain a basic understanding of object-oriented programming and enhance their critical thinking and problem-solving skills as they learn to design, code and debug Python programs.

2. They will get hands-on experience with a real-world programming language and will learn the fundamental concepts of programming.

3. They will be able to apply the basic programming principles they mastered to learn other programming languages.

Karthik Shanbhag and Group,

SMVITM, Bantakal,

Udupi

Dear Students,

I hope this letter finds you well. I am reaching out to you with an exciting opportunity to make a meaningful impact in our community. We are keen to develop an innovative mobile application focused on blood banking, aimed at facilitating blood donations, connecting donors with recipients, and streamlining the blood donation process. We believe that you are well-positioned to take on this challenge and bring our vision to life.

The application will serve as a vital tool in addressing the critical need for blood donations and ensuring a steady supply of blood for patients in need. It will include features such as:

- User-friendly interface for donors to register, schedule appointments, and track donation history.
- Real-time notifications to alert users about blood donation drives, urgent blood needs, and other relevant updates.
- Geolocation functionality to locate nearby blood banks, donation centers, and mobile blood drives.
- Integration with social media platforms to raise awareness, encourage participation, and engage with the community.

We believe that your creativity, technical skills, and innovative thinking will be invaluable in conceptualizing and developing this application. Your involvement in this project will not only provide you with a hands-on learning experience but also make a significant difference in the lives of countless individuals who rely on blood donations for their survival.

Warm regards,

Dr. K Sarvothama Shetty

ACTIVITY SUMMARY

Student (coordinator) name: Karthik Shanbhag   **USN:4MW20CS035**

Title: Spreading Awareness
Activity held at: Shri Madhwa Vadiraja Institute Of Technology And Management, Bantakal
Objectives: 1) To implement the internet technology in medical to make things easier. 2) To connect the blood donors and needy hospitals as early as possible using internet. 3) To reduce the chance of loss of life due to delay in contacting donors. 4) To reduce the possibility of unavailability of blood even though there are donors , due to delayed communication.
Description: As accidents are increasing day by day, there may be huge need of blood for the victims . At the same time there are many donors also. But due to lack of communications the needy victim may not get the blood in time and lose their life. Hence we thought to implement a internet based solution to this problem. So we developed an website in which both hospitals and donors can register. Whenever an hospital needs blood it can request the registered donors for blood and whoever willing to donate can donate. If not donor can decline the request also. Like this we can reduce the time of communication using technology.
Outcomes: 1) A web application that connects the hospitals and blood donors. 2) Learnt about web development. 3) Reduced chances of risk of life by using modern technology
Learning from this activity: 1) We learnt how to manage time very well. 2) We learnt how to work in co-ordination. 3) We learnt how to complete a task in an efficient way. 4) We learnt about web development techniques.

Karthik Shanbhag and Group,

SMVITM, Bantakal,

Udupi

Dear Students,

I hope this letter finds you in good spirits. I am writing to express my heartfelt appreciation for the outstanding work you have done in developing the blood banking application. Your dedication, creativity, and technical expertise have played a pivotal role in bringing our vision to fruition. The application you have created will not only revolutionize the way blood donations are managed but will also have a profound impact on the lives of countless individuals in need of blood transfusions.

I am particularly impressed by:

- Your commitment to understanding the needs of our community and designing a solution that addresses those needs effectively.
- The user-friendly interface and intuitive features of the application, which will make it easy for donors to register, schedule appointments, and contribute to this lifesaving cause.
- Your proactive approach to incorporating feedback and continuously refining the application to ensure its functionality and usability.
- Your passion for social impact and your willingness to invest your time and talents in this project are truly commendable. You have demonstrated exceptional teamwork, leadership, and problem-solving skills throughout the development process, and your efforts have not gone unnoticed.

On behalf of [Your Organization/Institution Name], I extend my sincere gratitude to each member of your team for your hard work, dedication, and commitment to excellence. You have not only created a remarkable application but have also set a shining example for your peers and future generations of students.

With deepest gratitude and warmest regards,

Dr. K Sarvothama Shetty

ACTIVITY PROPOSAL

Name of the student Coordinator	:	Kavya
Number of students Involved	:	04
Academic Year	:	2021-2022
Activity Title	:	To create an awareness about dengue and chikungunya and the prevention methods
Activity held under (Department/Cell)	:	Computer Science and Engineering
Activity held at	:	Hanehalli,Barkur, Yedthady, Varamballi, Alevoor
Activity Dates	:	09-09-2022 to 15-09-2022
Total Duration needed	:	90 hrs

Title: Creating awareness about dengue and chikungunya and the prevention methods

Objectives of the proposal :

• To create awareness about dengue and chikungunya.

• To create the awareness among the people on how to prevent the spreading of dengue and chikungunya.

• To educate the people and create a sense of awareness on how to prevent or control spreading of dengue and chikungunya and tips to treat the disease by distributing pamphlets.

Background of the proposal :

Dengue and chikungunya fever is vector-borne infectious tropical disease caused by the dengue and chikungunya virus, the most common on arthropod-borne infections in human. According to WHO, the best strategy to avoid dengue and chikungunya endemic is to educate people about the disease and preventative measures. In order to create awareness India has established National Vector Borne Disease Control Programme(NVBDCP).

Description of the proposal :

We have come up with an initiative of visiting households located in the above mentioned localities to provide information regarding spreading of dengue and chikungunya by distributing pamphlets.

The pamphlet or the prototype will have information regarding on how to prevent spreading of disease by taking certain measures mentioned on tthe pamphlet and how to recongnize or identify the symptoms regarding the disease dengue and chikungunya if the person is already infected.
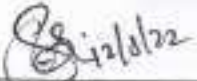

Principal
SHRI MADHWA VADIRAJA
INSTITUTE OF TECHNOLOGY & MANAGEMENT
Vishwothama Nagar, Udupi Dist.
BANTAKAL - 574 115

Milestones with time schedule & work plan:

Conduct awareness program around 60 houses during holidays. A group of 4 member will be split to cover as many houses as possible.

Deliverables of the project :

- Aware people about symptoms and prevention methods of dengue and chikungunya disease.
- Distributing pamphlets which has information about the disease.
- Video and photo proof of the demonstration.

Respected Sir,

Subject: Requesting to conduct awareness activity about dengue and chikungunya

As a part of our university curriculum we need to conduct some activity apart from technical syllabus. So as part of this activity we are planning to conduct some awareness program for the needy. As there is a rase in dengue and chikungunya disease, we have desided to hold on activity to create awareness about dengue and chikungunya in your panchayat region. We have desided to do so by visiteing households. So we kindly request you to grant us permission to do the above.

Thanking you

Yours faithfully

Kavya

ACTIVITY SUMMARY

Student (coordinator) name: Kavya   **USN:4MW20CS037**

Title: Creating awareness about dengue and chikungunya and the prevention methods
Activity held at: Hanehalli, Barkur, Varamballi, Yedthady, Alevoor
Objectives: 1) To go to places give pamphlets to neighbour on awareness of dengue and chikungunya. 2) The pamphlet consists of symptoms and prevention measures against dengue and chikungunya. 3) To tell the prevention measures required to be taken against dengue and chikungunya.
Description: We have come up with an initiative of visiting households located in the above mentioned localities to provide information regarding spreading of dengue and chikungunya by distributing pamphlets. The pamphlet or the prototype will have information regarding on how to prevent spreading of disease by taking certain measures mentioned on the pamphlet and how to recognize or identify the symptoms regarding the disease dengue and chikungunya if the person is already infected.
Outcomes: 1. It created awareness among the people about dengue and chikungunya 2. People came to know about the dengue and chikungunya disease
Learning from this activity: 1) We learnt how to manage time very well 2) We learnt how to work in co-ordination 3) We learnt how to complete a task in an efficient way 4) We developed skills like perfection in work, how to complete the work in a neat and tidy manner 5) This activity has improved our communication skills among the group

ACTIVITY SUMMARY

Title: Awareness on basic Computer Skills to Government School Students.

Activity held at: Christian English medium school and Primary School Athradi.

Objectives:

- To foster among students an interest and confidence in using computers.
- Show positive attitudes for adapting to and coping with a changing society with widespread utilization of computers.
- To create an awareness of what the major components of computer are and how they act as a system.
- To provide basic knowledge of using computers to students who come from rural and economically weaker sections of the society, thereby enhancing the overall quality of education by providing adequate resources.

Description:

1. Computer education is a part of school curriculum in nearly all the private schools, however a lot of government, semi-government educational institutions in our country are still deprived of quality computer education.
2. There are many reasons, unavailability of working and well-maintained computer lab continues to remains one of the foremost reasons.
3. Computers can make process of learning interesting as well as knowledge rich.
4. It can attract the students to learn progressively, resulting in more individuals having multiple options of going towards higher education, computers create opportunities for them in today's job market by enhancing the quality of education being given to them.

Outcomes:

- Microsoft Word is the de facto standard in business for creating documents such as letters, invitations, term papers, flyers, resumes, novels and other documents.
- PowerPoint enables you to create dynamic presentations through the use of text, graphics and animation. Slide presentations created with the software are often displayed on projection screens for business, training or educational presentations.

- Excel is a spreadsheet application, typically used to display and manipulate numerical data. Microsoft Excel provides data organization and analysis tools that enables you to sort, extract and generate charts from spreadsheet data.

Learning from this activity:

- Microsoft Office products help improve work efficiency with user friendly features that enable easy and secure information sharing.

- This Microsoft Office training is suited for anyone who wants to improve their skills and master Microsoft Office.

- This short-term course aims at making participants experts in the most widely used application packages of MS Office suite.

ACTIVITY SUMMARY

Title: Jasmine Wage Calculator
Activity held at: Shankarpura, Modubelle, Marne, Shirva

Objectives:

- To educate people to manage the accounts through the app rather than the traditional way of managing the accounts through the book.

- To ease the process of maintaining the cost related to the product without any mistakes.

- To help people to adapt to the modern thinking of society.

- The process of searching, adding and maintaining the records becomes easier and convenient.

Description:

Developing the application with the simple and the informative user Interface so that it could be easily understood by anyone and to implement the use of the mobile application to maintain the amount that is to be given to the farmers at the end of the week. To also maintain the varying cost of the flower day by day and to provide the billing structure to the farmer at the end of the week. This application makes maintaining a record a lot easier than the traditional way of storing the information in the books.

Outcomes:

By using the application developed they can adapt to the modernization of the day to day activities. By the using the application it helps with the efficient usage of the time. Entering every individual's information in this application is easier than the traditional way of entering the information in the book. The application provides a detailed bill at the end of the every week. The chances of misplacing the book is more but the chances of losing the data in this application is unrealistic. Finally introducing small application like this increases the villager's enthusiasm to use the modern technology or methods for their small scale business.

Learning from this activity:

- Interaction with the people related to application development

- Experience in developing small scale applications.

- Being able to undertake and manage small scale assignments.

ACTIVITY PROPOSAL

Name of the Student Coordinator	:	Manoj Bhagawath
Number of Students Involved	:	10
Academic Year	:	2022-2023
Activity Title	:	Sarvada app (Updated / modified)
Activity held under (Department/Cell)	:	Computer Science and Engineering
Activity held at	:	Udupi
Activity Dates	:	01-12-2022 to 02-04-2023
Total Duration needed	:	100 hours
**Title:**

Implementation of a database system that seeks to aid employers, managers, and alike to understand relevant data regarding their employees.

Objectives of the proposal:

- Assist in providing uncluttered data, arranged as per requirements.
- Allow managers to implement changes, such as adding or deleting employee records.
- Keep a tab on the total strength of employees and make decisions based on discernable information.
- Allow managers to maintain attendance of employee.
- Allow employees to sign in and view their data.

Background of the proposal:

There is a disconnect between employers and the organizations they manage. This may occur due to lack of time and the strenuous nature of the task due to the means of data observation. This would lead to hardships in tracking inventory and employee records. This will eventually hinder growth plans as opportunities for improvement of productivity will rarely occur. However, making use of a database management system will help in looking up data in a better manner. Employees can be handled with much more ease than in previous scenarios. A database management system makes this aspect of an organization much easier to deal with.

Description of the proposal:

The project which has been taken up involves a client who seeks a working database management system that allows the user to view necessary details of employees of their organizations. Further features such as looking up certain employees and addition of new employees and the termination of records of former employees must be contrived. The Activity would also be made to be practically used and with optimal functioning.

Milestones with schedule & work plan:

Conduct the implementation of the activity with a set deadline that is estimated to finish over approximately 80 hours. Sub-teams are to be designated to handle each facet of the project.

Principal
SHRI MADHWA VADIRAJA
INSTITUTE OF TECHNOLOGY & MANAGEMENT
Vishwothama Nagar, Udupi Dist.
BANTAKAL - 574 115

Deliverables of the project:

- A finished system with features to view general data concerning employees effortlessly and take actions regarding that data.
- A report that encompasses the design, steps, and ideas implemented within the project.
- Demonstration of the finished project and its functionalities.

List of students participating in the Activity:

ACTIVITY SUMMARY

Student (coordinator) name: Aaron Sharon Dsouza   **USN:4MW20CS001**

Title: VTU Calculator

- To aid oneself in swift assessment of one's academic performance.
- To provide easier means of CGPA and SGPA calculations for the students.
- To create awareness about calculating Engineering marks.

Description:

The project will include automated calculations of SGPA and CGPA for which the program code will be designed, developed and implemented by us.

The languages used to build this project/website include HTML, CSS and JAVASCRIPT.

Our main goal is to help students to calculate their SGPA and CGPA with utmost ease and efficiency.

Outcomes:

1. Saves time for Students in calculating SGPA and CGPA as there is no need for manual input for credits.
2. Provides accurate result efficiently.
3. User-friendly interface.

Learning from this activity:

1) We learnt how to manage time very well.

2) We learnt how to work in co-ordination.

3) We learnt how to complete a task in an efficient way.

4) We developed skills like Front-end development, identifying the user requirements and problem solving.

SMVITM

DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING

ACTIVITY SUMMARY

Student coordinator: Bhoomika K Baadkar   **USN:4MW20CS016**

Title: Spoken English and Interpersonal Skills

Activity held at: [Kerwadi , Virja, Mallapur, Katar] -Karwar Tq

---

Objectives:

1) Handle with influence awkward situations in a graceful manner
2) Prepare tools and checklists for the obstacles confronted when working with difficult personalities
3) Learn the use of effective first impressions during meetings
4) Make to improvise on your body language, communication, and listening skills
5) Learn to manage stress and stressful work conditions and situations
6) Understanding the Why and How of people behaving and reacting to others
7) Demonstrate a greater level of personal control and increased positive results.
8) Spoken English helps to be fluent in English where people are lacking in facility to learn the language.

Description: We thought to teach school students of village at Karwar some basic English as they don't get proper English education and help them learn true and clear diction of English and their meaning . And as interpersonal skills are important in all being, we thought to give light to these thought also that what are interpersonal skills and why it is important for us. Totally the session were for the help of students betterment.

Outcomes:

1. Students were able to understand the proper meaning of word and could be fluent in at least basic English and proper way and time to use words.
2. Interpersonal skill developed some knowledge in them regarding harmony,patience,body language etc. which students enjoyed knowing basic skills

---

Learning from this activity:

1) We learnt how to maintain so much people at a time

2) We learnt how to work in co-ordination

3) We learnt how to complete a task in an efficient way and given time

4) We learnt how to teach other person effectively
