governmental body or regulatory / legal authority, provided that, Partner, where reasonably practicable and to the extent legally permissible provides Infosys with prior written notice of the required disclosure so that Infosys may seek a protective order or other appropriate remedy, and provided further that Partner discloses no more Confidential and Proprietary Information than is reasonably necessary in order to respond to the required disclosure. The secrecy of the Confidential and Proprietary Information disclosed pursuant to this MOU shall be maintained for a period of five (5) years following disclosure thereof.

3. DATA PRIVACY

- 3.1. The Parties hereby agree that each of it shall be acting in the capacity of an independent Data Controller and no PII (as defined under this MOU) of the other Party shall be used for any purposes other than for the fulfillment of the purpose of this MOU and provision of the Services as contemplated herein. Infosys while processing Personal Data for the purpose of Services contemplated herein; shall adhere to the stipulations agreed under Schedule C.
- 3.2. With respect to Personal Data provided by or on behalf of Partner or permitted by Partner to be provided to Infosys (a) Each party will comply with all Laws, including all Laws relating to privacy or data security (b) Infosys and Partner will not be required to monitor or advise the other, in determining compliance with laws; (c) in the event of any change to (including changes in interpretation of a Law which requires a change to all or part of the Service, the Parties may make appropriate adjustments to the terms of the MOU and the Service, as determined by Infosys; and (d) Partner will encrypt all Partner Personal Data, prior to the provision to Infosys of such Partner's Personal Data by or on behalf of Partner or permitted by Partner to be provided to Infosys, or using such in connection with the Services. Partner is responsible for back up of all Partner Data.
- 3.3. Infosys has established and maintains a data security program. The existence of the data security program does not relieve either party of their obligations otherwise described in the MOU.

4. OWNERSHIP AND RESTRICTIONS

As used in this Section 4, the following terms have the respective meanings set forth below:

"Content" means any material hosted or to be hosted on Infosys Springboard including but is not limited to text, data, images, videos, graphics, code or other items

"Free Software Foundation" means an entity defined at <https://www.fsf.org/about/>.

"Partner Content" means all the Content that Partner uploads on or make available through Infosys Springboard.

"Infosys Content" means all the Content owned by Infosys or licensed to Infosys by any third party.

"Intellectual Property Rights" means all patents, copyrights and related rights, database rights, utility models, design rights, trademarks, service marks, rights in undisclosed or Confidential Information (such as knowhow, trade secrets and inventions) (whether patentable or not) and other rights of a like nature (whether registered or unregistered) and all applications for such rights as may exist anywhere in the world.

"Open Source Software" means any software that is licensed under any license listed or described at <http://www.opensource.org/docs/definition.php> or any license currently listed at <http://www.opensource.org/licenses>. Free Code as defined by the Free Software Foundation.

- 4.1 Except as provided herein, this MOU will not be construed to grant any license under any trade secret, patent, patent application, industrial design, trademark, copyright, mask work, confidential process, formula, plan, computer program, data or other valuable confidential information or know-how to either Party. Each Party will own and retain all of its right, title, and interest in and relating to its intellectual property rights in its Products and Services and Confidential Information, both currently used and that which may be developed and used in the future. For avoidance of doubt, all intellectual property rights in Infosys Springboard and Infosys Content will be retained by Infosys. Except otherwise provided in this MOU, Partner is not permitted to use the Infosys Springboard and Infosys Content.
- 4.2 Each party will have the non-transferable, non-exclusive, revocable license to use the other Party's logo(s), trade names(s) and trademarks and the names of its Products ("Marks") identified in Schedule D, all in unmodified form, solely for identification purposes in relation to the branding and marketing for the Services described in this MOU. All Marks must be reproduced on all copies of the Products and may not be altered or removed. The Party owning a Mark may modify, add or delete any such Marks upon sixty (60) days prior notice to the other Party. Each Party further agrees to ensure that all such use will comply with good trademark usage practices and the standards of display and trademark usage guidelines provided by the other Party and to take no action that would in any way infringe or interfere with the other Party's rights in its Marks. Each Party agrees to cooperate fully with the other Party in facilitating the other Party's monitoring and control of the nature and quality of the use of the other Party's Marks. Neither Party will have any right, title or interest in the Marks of the other Party, which will remain its sole and exclusive property, and each Party will retain all goodwill inured through the use of their respective Marks and, thus, agrees to assign to the other Party any rights that such Party may acquire in the applicable Marks by operation of law or otherwise. At no time during or after the term of this MOU will either Party challenge or assist others to challenge the other Party's Marks or the registration thereof or attempt to register, use or permit the use of any trademarks, marks or trade names confusingly similar to those of the other Party.
- 4.3. Infosys grants Partner a non-exclusive, limited, revocable, non-transferable, non-sublicensable license during the term to access and use Infosys Springboard and Infosys Content within the territory of India for educational and non-commercial purposes. Partner agrees not to distribute, transmit or publicly display any Infosys Content or any derivative work of Infosys Content to any third party unless otherwise agreed in this MOU. Partner agrees to retain all copyright or other notices fixed on any Infosys Content.
- 4.4. All Intellectual Property Rights in Partner Content will be retained by Partner. Partner represents and warrants that it has the necessary rights, licenses or consents to upload the Partner Content and to authorize end users of Infosys Springboard to access the Partner Content.
- 4.5 If Partner chooses to make the Partner Content available only to its authorized users, Partner grants Infosys a non-exclusive, worldwide, royalty free license during the term of the MOU to host and display the Partner Content to authorized users of Partner through Infosys Springboard. In the event Partner chooses to make the Partner Content available at all the users of Infosys Springboard, Partner grants Infosys a non-exclusive, worldwide, royalty free, sub-license, perpetual license to host, copy, store, transmit or publicly display the Partner Content.
- 4.6 Partner agrees that Infosys has the right to remove the Partner Content from Infosys Springboard in the event Infosys receives any written notice or grievance from any third-party alleging infringement of its Intellectual Property Rights or violation of any privacy rights of that third party resulting from the Partner's Content.

- 4.7. Partner agrees to indemnify, defend and hold harmless Infosys, its Affiliates, directors, officers, employees, representatives, and agents for any losses, damages, or expenses incurred by Infosys (including reasonable attorney fees) against: (i) any third party claim arising from the PARTNER's Content; (ii) breach of any warranties including implied warranties contained in this MOU by Partner; (iii) breach of confidentiality, data privacy and/or security obligations under this MOU, by Partner

Infosys agrees to indemnify, defend, and hold harmless Partner, its Affiliates, directors, officers, employees, representatives, and agent for any losses, damages or expenses incurred by Partner (including reasonable attorney fees) against any third-party claims (i) arising from the Infosys breach of intellectual property rights; and (ii) breach of confidentiality, under this MOU. If any infringement claim is made or the same appears as a just claim concerning Infosys' Content, Infosys shall modify Infosys' Content so that is no longer infringing; or replace it with a non-infringing Infosys' Content.

THE INDEMNIFICATIONS STATED HEREIN ARE WITHOUT PREJUDICE TO THE INDEMNIFICATIONS THAT PARTNER HAS PROVIDED ELSEWHERE IN THIS MOU.

- 4.8. Partner agrees not to do, and not to allow or authorize any of its instructors or third party to do, any of the following:

- a. Use Infosys Springboard in any manner that could interfere with, disrupt, negatively affect or inhibit other users from fully enjoying the services provided by Infosys Springboard, or that could damage, disable, overburden or impair the functioning of the Infosys Springboard;

Infosys Springboard

Scope and Details of the Services

Infosys has launched Springboard initiative to accelerate progress on its ESG goal to expand digital re-skilling initiatives to 10 million plus people by 2025. As part of Infosys CSR, Infosys Springboard provides a curriculum-rich virtual platform that delivers corporate-grade learning experiences, on any device, with closer educator-learner collaboration for students from Class 6 to lifelong learners. This, alongside formal education, helps accelerate digital re-skilling for participating learners, ranging from school and college students to professionals and adults.

Infosys Springboard's holistic set of courses, powered by Infosys Wingspan and developed in collaboration with world-leading digital content providers, takes advantage of Infosys' 4 decades of rich experience in employee and broad-based student competency development. It is also fully aligned with India's National Education Policy 2020. The learning program is particularly well-suited to grow vocational skills in addition to soft skills. Master-classes, programming challenges, practice areas and playgrounds for experimentation make the training immersive for all. The assessment formats that follow are new-age ready with certification for learners who pass the virtual proctored examination. As of March 2023, nearly 53 lakhs learners and 2000+ education institutions, NGOs and support groups are already onboard Infosys Springboard.

Infosys Springboard empowers:

- Students to 'learn by doing' and develop holistically in preparation for emerging jobs and career opportunities
- Women with a focused learning micro site, specialized resources and expert mentors for holistic development as planned and scheduled events
- Working professionals with advanced digital skills to prepare them for new age and emerging roles of future
- Teachers to better collaborate with learners on their skilling journey using the platform's engagement features
- NGOs to extend learning benefits more broadly, especially to the underserved sections of society

Infosys Springboard will further amplify ongoing programs like Infosys Campus Connect to deepen industry-academia relationships, Infosys Catch Them Young annual training program in Information Technology for high school students and Aspire and Achieve workshops for aspiring professionals. Infosys Springboard App is now available on both Play Store and App Store.

Following are some of the new learning initiatives and capabilities launched recently.

- Infosys CodersZen, for learning programming languages Java, Python, C#, JavaScript and more.
- Virtual / digital classroom capabilities which can be leveraged by the institutions to conduct their regular online classes
- Video Proctored Exam / Assessments environments which can be used by institutions to conduct online test.

Principal

SHRI MADHVA VADIRAJA
INSTITUTE OF TECHNOLOGY & MANAGEMENT
Vishweshwaraiah Road, 1st Floor,
BANARSI, U.P.

All of the above features including Telemetry, customized microsite, Virtual Digital Classrooms and Video proctored Exam environments are available for institutions to leverage.

College students have access to quality content in professional programming, Playgrounds for all emerging technologies, domain skills and project management skills from leading content providers in the world. They also have access to certification programs which will improve their employability.

The Parties will work together to develop a plan for performing the Services contemplated under this MOU. The plan may include, among other things, conducting joint branding and marketing calls, joint presentations, developing branding and development proposals, determining user interface strategy and user needs.

SCHEDULE B

Faculty Enablement Program

Human capital has been amplified through focus on Work, Workplace, and Workforce. Through Infosys Springboard, we attempt to share with you the Infosys way of building a Culture of Lifelong Learning over the years, our trials and experiments, our learning and progress. It covers Learning Experience, an introduction to Learning Platforms, and the way features work their magic along with advanced telemetry. Infosys has clarity of vision and strategy for future of learning and adoptions of technology in learning.

The next generation of learning will require entire ecosystems to come together – from governments and institutions to enterprises and technology partners to managers and employees. At Infosys, we are focused on bringing these moving parts together to truly impact the way we up-skill and learn. We are making the world future-ready, and the Infosys Springboard is a step in that direction.

At Infosys, we believe in lifelong learning for our employees, and competency development continues to be a key area of strategic focus for us. The formal Education and Training Division was set up more than three decades ago and has been at the forefront of driving employee learning and development programs using a combination of innovative technology, content, and deep expertise of our people.

Today with emerging technologies, new delivery models, changing talent demographics, geopolitical challenges, and now the COVID-19 situation and its aftermath are some of the forces disrupting and changing the talent needs of every industry. In this context, following are the core principles that have guided us in our talent transformation journey. We believe same thing is applicable for educational institutes at large

1. **Motivating to learn:** To be successful in driving this transformation, we had to ensure all barriers to learning are removed. This would ensure learners are able to access resources anytime, anywhere, and on any device – thereby taking complete control of how they want to manage their learning journey.
2. **Leveraging the Teacher-Student relationship:** For learning efforts to be effective, we saw a need for creating an active role for teachers in supporting and guiding their students in their learning journeys.
3. **Just-in-time Learning:** Trends indicated that people prefer to learn on the go, at their convenience, and just-in-time of the need. For this to happen, content had to be organized in micro-learning modules and thus meet the needs of different personas within the institution.
4. **Learning experience:** Most learners are used to digital experiences on platforms like Netflix, Amazon Prime shopping, YouTube, etc. Digital learning solutions that we set out to develop also had to be designed to provide such experiences.
5. **Ready for the future while delivering excellence today:** The Agile ways of working marked by shorter and continuous release cycles meant that there is a need to balance today's challenges with tomorrow's opportunities. Learning programs and courses had to be designed to meet these needs.

Introduction:

On 15th February 2024, a Springboard session was conducted at Shri Madhwa Vadiraja Institute of Technology & Management (SMVITM), Bantakal. The session was organized by the Department of Computer Science and Engineering in association with **ISTE, IEEE, Co-Curricular, and Placement Cell**. The purpose of the session was to introduce students and faculty members to the benefits of Infosys Springboard courses.

Dr. Thirumaleshwara Bhat, the Principal of SMVITM, delivered the presidential address. He encouraged students to take advantage of the session and update their skills. He also expressed gratitude to * resource person for their contribution to the event.

The program commenced with an invocation by Ms. Chitkala, a second-year CSE student. Ms. Natasha Lobo, also a second-year CSE student, efficiently served as the Master of Ceremony, facilitating the smooth flow of the event.

Ms. Aishwarya Rajeev, Senior Analyst – Learning at Infosys, graced the occasion as the chief guest. During her session, she emphasized the importance of Infosys Springboard courses for both students and faculty members. She provided guidance on how to register, join, and access the courses throughout the session. Springboard courses are crafted to align with the latest industry trends, technologies, and best practices. The curriculum is often updated to reflect emerging developments and demands within the IT landscape. Springboard courses play a pivotal role in empowering individuals to acquire new skills, stay updated with industry trends, and pursue rewarding career opportunities in the dynamic field of technology and IT.
