

SMVITM

Activity Request form

Academic Year	2021-22		
Department/Section/Committee/Cell	ECE & ME & ISTE		
Name of the Activity	5 Day FDP		
Target Audience	Faculty (in house) and External		
Activity Date(s)	14-18 March, 2022	Time	9am -5pm
Venue	ECE Dept.		
Resource Person	Industry Expert from VI solution		

Expected expenditure

S. No.	Description	Amount
1.	Honararium 6000/ day x 5 Days	30,000/-
2.	Travelling Allowance	2,000/-
3.	Food for participants	10,000/-
4.	Certificates	1,000/-
Total		43,000/-

(Add rows if required)

Source of fund (Sponsorship/Registration fee)

S. No.	Description	Amount
1.	ISTE for Honararium	30,000/-
--	Registration	15,000/-
Total		

(Add rows if required)

Financial support required from the Institute	Yes (ISTE)
---	------------

INSTITUTE OF TECHNOLOGY
Vishwothama Nagar,
BANTAKAL.

Instructions

Coordinators are requested to get the approval from the Principal at least one week before the activity.

Name of the activity:

- Invited Talk, Seminar, Workshop, Competitions
- Placement training programs to Students
- Placement drives
- FDP, EDP, Conference, staff development program
- First year Orientation day, Annual Day, Varnotsava, Graduation day, Sports day, games competitions, Avishkar, IIOT, Project Exhibition, Farewell Program
- Inauguration/Valedictory of Cell/Clubs
- Alumni meet, PTA meet
- College promotional activity, career guidance program

Target Audience (with expected number of participants):

- Staff- Teaching or Non-teaching/ department
- Students - Only registered students/compulsory
- Student details with class and departments

Resource Person: Name, Designation, Address and contact Number.

Expected expenditure: Includes Honorarium to resource person, TA/DA, Certificates, Food, Banner, Prize money etc.

For the department activity, coordinators are requested to get the approval from the concerned department Heads, and then submit it to IQAC.

IQAC in turn verify the committee perspective plan, activities of the other committees to avoid overlapping of the activities, gives the remarks accordingly and forward the form to the Principal for the approval.

After approval from the Principal, activity shall be conducted.

Principal

SHRI MADHWA VADIRAJA
INSTITUTE OF TECHNOLOGY & MANAGEMENT
Vishwothama Nagar, Udupi Dist.
BANTAKAL - 574 115

ABOUT THE INSTITUTION

Shri Madhwa Vadiraja Institute of Technology & Management (SMVITM), situated at Bantakal in Udupi district. The institute founded in the year 2010 by Shri Vishwavallabha Theertha Swamiji of Shri Sode Vadiraja Mutt with the motto "Engineering your Career and Character with Care". Though SMVITM is the youngest institute in the region, its accomplishments are many. Accreditation with "A-Grade" by National Assessment and Accreditation Council (NAAC), accreditation to the undergraduate programs by the National Board of Accreditation (NBA) are the outstanding accomplishments of the institute in the recent years. The institute is well received by the general public for the excellent infrastructure, distinguished learner centric facilities and dedicated team of faculty and staff members.

VISION

"To Establish an Excellent, Value-based Higher Educational Hub to Meet the Challenges of Global Competitiveness".

MISSION

To impart holistic education with state of the art infrastructural facilities and conducive academic ambience, at affordable costs, leading to the creation of Centers of Excellence with best brains collectively interacting for total personality development and intellectual growth.

ABOUT THE FDP PROGRAM

Increase in millions of units of electrical energy in transportation systems are predicted over the next few years due to the Electric Vehicle industry and smart grid initiatives. Increasing public awareness of the environmental impact of greenhouse emissions coupled with the development of efficient battery technology has pushed for the accelerating research and development activities in electric vehicles. Electric Vehicles (EVs) revolutions offer a cleaner mode of personal transportation and provide a new technology to store energy.

Integration of EVs and smart grid present challenges to the grid due to additional distributed storage and load. Intelligent control techniques are needed to mitigate the load impacts and protect components of the distribution network from being overloaded by Electric Vehicles.

The global share of Electric vehicles will increase from 2% in 2020 to 22% in 2030. The ability to deliver the technical information of these major areas to the right audience at the right time is a valuable skill. This Faculty Development Program (FDP) is designed to enrich the knowledge of the participants and provide a basic platform to carry out research in these fields which will also be useful for the development of the country. This FDP will also emphasise on recent advancement in charging infrastructures, battery/energy management approaches and motor drives of the electric vehicles. Overall, this FDP will serve as a platform to upgrade the knowledge of various applications in electric vehicles and energy storage systems.

Course content:

- > Hands-on Graphical Programming -Environment
- > Battery Management System
- > Artificial Intelligence for Electrical Vehicle
- > Electronic Design Automation Tool for EV Power Electronic Design
- > Electrical Drive Simulation for Electrical Vehicle
- > Renewable Charging station for Electric Vehicle
- > IoT Based EV Condition Monitoring System

Resource Persons:

Industry Experts from VI Solutions

Eligibility:

Faculty members from Engineering colleges / Reserch Scholars and PG Students of any Departments.

Dear all,

Greetings from Shri Madhwa Vadiraja Institute of Technology and Management, Udupi.

At the outset we would like to thank the participants for registering to this FDP.

Please find the attachments, consists of

- Software download links and
- Procedure to install the softwares.

Training Requirements:

1. LabVIEW should be Installed in the systems along with drivers for hardware interface

System Requirements:

1. OS: Windows 7SP1 (Preferred) , Windows 8.1, Windows 10 (Preferred)
2. RAM: 2GB-4GB
3. Processor: Pentium 4M (or equivalent) or later (32-bit)
Pentium 4 G1 (or equivalent) or later (64-bit)

NOTE:

- Participants are encouraged to install the softwares in their laptops for smooth conduction of training.
- During software installation disable the antivirus and windows firewall in the systems (if required).
- For Online participants gmeet link and further information will be shared through the whats app group.

--

Thanking you

Best Regards

Mr. Chetan.R
Asst. Professor(Sr.),

 Instructions to Install NI LabVIEW 2018 _VIS.pdf

Advancement in Electric Vehicle Technology: A Step Towards Development of sustainable Transportation System

Venue: Shri Madhwa Vadiraja Institute of Technology and Management, Udupi

Date	Hour 1	15 min	Hour 2	45 min	Hour 3	15 min	Hour 4
Day - 1	Electrical Vehicle Test Validation using Graphical System Design WHY? WHAT? HOW?	TEA	Hands-on Graphical Programming –Environment	Lunch	Hands on Graphical Programming – Data types & Functions	TEA	Hands on Graphical Programming – Structures
Day - 2	Battery Management System using Graphical Software		Hands on BMS – Acquire, Analyze and Derive Insights from Battery Packs		Artificial Intelligence for Electrical Vehicle – G’s Approach		Hands on AI for EV– Signal Classification and Identification
Day - 3	Electronic Design Automation Tool for EV Power Electronic Design -Introduction		Hands on Power Train Design – Inverter Model Validation		Hands on Power Train Design – Inverter Control Strategies – Square Wave & Modified Square Wave		Hands on Power Train Design – Inverter Control Strategies – SPWM Generation
Day - 4	Electrical Drive Simulation for Electrical Vehicle		Hands On Electrical Motor – PMSM /ACIM Motor Model Simulation		Hands on Electrical Motor – EV Motor Control Design and Validation		Discussion, Case study of Electrical Vehicle scenario in India
Day - 5	Renewable Energy power electronics design		Renewable Charging station for Electric Vehicle – MPPT charge controller		IoT Based EV Condition Monitoring System		IoT Based Embedded Platform Demo

NOTE: Max number of Participants is 35

Sri.Rathnakumar, Secretary, ShriSodeVadiraja Mutt Education Trust, Udupi graced the occasion and congratulated the departments for conducting the need of the hours topic for FDP. He also highlighted that due to the current war scenario crude oil per barrel cost will hike hence the optimum solution would be to switch to the EV.

Dr. ThriumaleshwaraBhat, Principal presided over the ceremony and advised to make the best use of the FDP and update the students for future challenges.

Good number of audience participated across the state through blended mode. Mr. Sudhir, program coordinator proposed the vote of thanks. Mr. AnanthMallya, Sr. Asst. Professor, ME Dept. introduced the Chief Guest. Dr. Ganesh Aithal, vice principal and Dr. Sachinbhat, HoD ECE Dept were present for the ceremony. Ms. Shashikala R, Sr. Asst. Professor from ECE Dept. was the master of ceremony.

FDP concluded on 18th March 2022, and during valedictory participation certificates were distributed and feedback collected from the participants.

Respected Sir

Sub: **Letter of Gratitude**

This is to gratefully acknowledge your gracious presence as Chief Guest on 14 March 2022 during the Inauguration ceremony of Five Days Faculty Development Program on "Electric Vehicle and Smart Grid" of our institute. Thank you very much for inspiring our faculty members through your thought provoking and apt address during the occasion. We will remember your encouraging words and kind association, forever.

On behalf of SMVITM, I thank you for making the event a truly successful one. We look forward to your continued support and association in our future endeavors too.

Thanking you

With Regards

Rate this session

Mention few takeaways of the program

13 responses

Basics of labview, machine learning interface in labview, IOT interface using labview

Understand about smart grid concept

Yes

Effective usages of Labview Tool for many applications

Learned about File Handling, Boost Converter, PMSM Motor and Data Transfer through Data Dashboard

Virtual Instrumentation

Fundamentals on current technologies based on Electric Vehicle and Smart Grid was understood

EVs will be taking over

Graphical programming, Battery management, ML versus DL, power converter and inverter design, electrical motor control, local and remote data transfer

Hands on LabVIEW was excellent.

EV monitoring and controlling using Lab view

EV Motor simulation

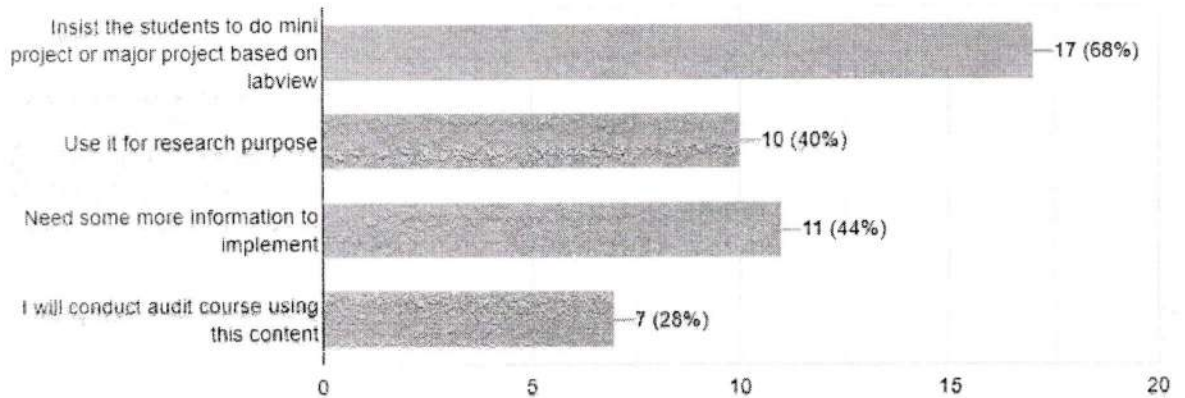

Learnt basics of LabVIEW software

Good exposure to LabVIEW and Multisim software tools, basics about Electric Vehicles and Smart grid, communication models using these tools, etc

Overall view of LabVIEW software, Concept of Hardware in loop and battery management system understanding for EVs

How would you utilize this learnt content in future

Any suggestions that would help us improve the quality of the program?

25 responses

No

No suggestion

Good workshop, Thank you

Please do any program related to signal processing

Nice session

Good ENC HOD Sachin sir and Mech HOD has done wonderful work

It was well organized. Thank you

It's better to have continued FDP for atleast three years. So that participants can gain more knowledge and they can utilize for research work/project work

Nothing. No suggestions. It was awesome

Good arrangement. Can arrange similar FDP when all faculties are available

It was very useful program... Thank you all for arranging FDP in online mode also..

No..

Well organized. Thanks for organizing.

No suggestions

None

None

Better lunch

Every thing was good

Well conducted, Thank you for organising and inviting.

Good presentation and excellent resource person

LabVIEW and hardware interfacing can be doing done in future

Very Informative Session

Some handouts on the lectures will help to grasp the contents better.

No suggestions
