SMVITM's adherence encourage students to enroll in online courses can be highly beneficial for their academic and personal development. Here are some reasons why our institution urges students to take advantage of online courses:

1. **Expanded Learning Opportunities**: Online courses offer a wide range of subjects and topics that may not be available within the college's curriculum. Encouraging students to enrol in online courses allows them to explore areas of interest beyond what is traditionally offered on campus.
2. **Flexibility and Convenience**: Online courses typically offer flexible scheduling, allowing students to study at their own pace and on their own time. This flexibility can be particularly beneficial for students with busy schedules or commitments outside of their academic studies.
3. **Supplemental Learning**: Online courses can serve as supplemental learning experiences, providing students with additional resources and perspectives to complement their in-class education. They can deepen understanding, reinforce concepts, or provide alternative teaching methods for difficult topics.

The total number of online courses of MOOCs, SWAYAM, NPTEL, COURSERA etc. (where the students of the institution have enrolled and successfully completed during the last five years) are 508.

The following table provides the information about online courses that are enrolled and completed by the students for the last five years.
