BANTAKAL - 574 115

1. Preamble

A well-structured feedback mechanism is imperative for the progress of any institution. An effective mechanism for collection of feedback and analysis of the feedback is vital to contribute to all aspects of quality assurance. It holds a key responsibility in improvement of quality enhancement, teaching learning process, infrastructure and learning resources.

At SMVITM a comprehensive feedback system is adapted, encompassing formative and summative feedback, course end surveys, graduate survey, student satisfaction surveys, facility feedback, alumni surveys, and curriculum feedback.

The feedback mechanisms are designed to gather insights from various stakeholders and continuously improve the educational experience.

Feedback type	Frequency	Feedback collected from	Mode	Purpose
Curriculum feedback	Once in a year	Faculty, Students, Alumni, Parents and Employer	Offline and online through college website.	To improve TLP and include value added courses and activities
Feedback on teaching learning process	Twice in a semester	All students	Online through MIS	To improve TLP
Course end survey	Once in a semester	All students	Online through Google form	To improve TLP and CO assessment
Graduate survey	Once in a year	Outgoing students	Online through Google form	To improve TLP and PO assessment
Student Satisfaction survey	Once in a year	First, Second and Third-year students	Online through Google form	To improve TLP
Feedback on facility	Once in a year	Parents and students	Offline and Online through Google form	To improve the institute facility
Alumni survey	Once in a year	Institute Alumni	Online through Google form	To improve TLP and PEO assessment

2. Curriculum feedback

Curriculum feedback is collected annually from faculty, students, alumni, parents, and employers at the beginning of the academic year to enhance the curriculum delivery.

This feedback serves as a basis for decisions regarding value-added courses and co-curricular/extracurricular activities, ensuring continuous improvement in the educational offerings at SMVITM.

The collection of curriculum feedback is facilitated through offline mode. Offline feedback is obtained by distributing the feedback form to the stakeholders, who then complete and return it.

Principal

SHRI MADHWA VADIRAJA
INSTITUTE OF TECHNOLOGY & MANAGEMENT
Vishwathama Nagar, Udipi Dist.
BANTAKAL - 574 115

Curriculum feedback collection and analysis process is as follows:

- Feedback questions are prepared by the Internal Quality Assurance Cell (IQAC) in collaboration with the Heads of Departments (HoDs) and academic coordinators of the departments.
- The IQAC arrange to take a curriculum feedback form for all stakeholders and shares it with the HoDs for distribution and collection of feedback from the stakeholders.
- HoDs coordinate the collection of feedback from stakeholders through departmental academic coordinators.
- Following the collection of feedback, the HoDs and departmental academic coordinator collaborate to compile a feedback analysis report.
- This report is discussed in the department program assessment committee meeting and an action plan report is drafted and submitted to the IQAC for approval and subsequent implementation.

3. Feedback on teaching learning process

Feedback on the Teaching Learning Process (TLP) provides students with an opportunity to express their opinions on their level of understanding, course content, evaluation procedures, and the performance of course teachers. This feedback serves as a catalyst for further enhancements in the TLP, aiming to achieve the desired outcomes.

Feedback on the TLP is collected from students through the institute's Management Information System twice per semester (Formative and Summative).

Formative Feedback: Formative Feedback, consisting of 8 questions rated on a 5-point scale, is gathered during the 8th week of the semester to provide real-time insights for instructors to identify areas for improvement mid-semester.

Summative Feedback: Summative Feedback, comprising 10 questions also rated on a 5-point scale, is administered during the 12th week.

The TLP feedback collection and analysis process is as follows:

- Feedback questions are prepared by the Internal Quality Assurance Cell (IQAC) in collaboration with the Heads of Departments (HoDs) and academic coordinators of the departments.
- The IQAC shares the feedback questions with the software team to prepare the feedback form in the institute's Management Information System.
- HoDs oversee the collection of both formative and summative feedback from students through departmental academic coordinators, adhering to the schedule.
- Following the collection of feedback, faculty members provide their feedback on student responses, and the Head of the Department (HoD) gives their remarks.
- Faculty members who receive less than 75% positive feedback are notified to make improvements, while those with 95% and above receive appreciation.

Student feedback also serves as a parameter in the faculty Performance Appraisal System.

Principal

4. Course end survey

Course end survey is collected from the students at the end of each semester through a Google Form. The survey consists of two sections: the first section evaluates course objectives, content, activities, and assessments, while the second section focuses on course outcomes, using a 4-point scale.

Course end survey collection and analysis process is as follows

- Survey questions are developed by the Internal Quality Assurance Cell (IQAC) in collaboration with the Heads of Departments (HoDs) and program coordinators of the departments.
- The IQAC shares the formulated survey questions with the HoDs for preparation of Google form.
- HoDs coordinate the collection of survey from the students through departmental program coordinators.
- Once the surveys are collected, they are shared with the respective course coordinators.
- The responses gathered from students through the survey serve as an indirect assessment of the course outcomes.

5. Graduate survey

The Graduate Survey is collected from outgoing students before the conclusion of the eighth semester. It serves as an indirect assessment of Program Outcomes (PO) and gathers information regarding various aspects of the graduate program. This includes strengths and weaknesses, required changes for improving education quality, as well as preferences at SMVITM. Additionally, the survey collects data on employment status, achievements, future plans, and intentions for higher studies.

The process for collecting and analyzing the Graduate Survey is as follows:

- The Internal Quality Assurance Cell (IQAC) collaborates with the Heads of Departments (HoDs) and program coordinators to formulate survey questions.
- The IQAC shares the formulated survey questions with the HoDs for preparation of Google form.
- HoDs coordinate the collection of survey from the outgoing students through departmental program coordinators.
- Once the surveys are collected, HoD and departmental program coordinator collaborate to compile a survey analysis report.
- The survey analysis report is deliberated in the department program assessment committee meeting, leading to the drafting of an action plan report.
- This report is then submitted to the IQAC for approval and subsequent implementation.
- The responses gathered from students through the survey serve as an indirect assessment of the program outcomes.

Graduate Survey for CSE department

This survey of the graduating class is being conducted to know about the future plans of our graduates and also to collect feedback to academic programs on the quality of graduate education, either to reinforce positive interactions, or to offer constructive feedback on improving the quality of education for students in the future.

The data collected from the survey will be kept in the department and will only be accessed by the staff members who conduct the data analysis. All information related to your personal identity will remain strictly confidential within the department.

We very much appreciate your assistance in providing this information.

If you have questions at any time about the graduate survey, please feel free to contact the Head of the Department.

Course End Survey-7 SEM_2022-2023

Dear Students,

As part of the outcome based education, to assess the indirect attainment of the course outcome, feedback from the students on the attainment of course outcome is to be collected.

In this regard, I request you to please complete the course end survey.

Part-A is for the course design and plan

Part-B is achievement of course outcome

Curriculum Feedback(Employer)

Name:	Designation:
Address:	

Dear Employer, please give your valuable feedback about the course syllabus of BE program.

The information provided by you will be used only to design and improve the curriculum delivery process.

PLEASE CROSS (X) THE RESPONSE THAT REPRESENTS YOUR OPINION

S.No	Particulars	Strongly Agree	Agree	Neutral	Disagree	Strongly Disagree
1	Syllabus will help to develop qualified engineers with high ethical standards					
2	Syllabus of the BE program was well designed and covers from fundamental to advanced topics					
3	Syllabus will enhance the ability to use modern techniques, tools and skills necessary to solve engineering problems					
4	Prescribed syllabus will help to develop the professionals competitive with other universities hired by the company					
5	Prescribed curriculum is in line with the industry requirements					

What changes would you recommend to improve this course?

Any additional comments about the curriculum

Student Feedback on Teaching Learning Process

Feedback:

We collect the student feedback twice in a semester (formative and summative). After collecting course-wise feedback from the students regarding teaching-learning process, the same is brought to the notice of the concerned course handling faculty member.

Action taken:

The Course handling faculty member shall enter his/her remarks for the feedback in the MIS. Later, HOD will give his/her observations on the faculty feedback on the student feedback. Feedback is also a component in the faculty Performance Based Appraisal wherein the faculties can claim points for earning incentive. Faculties not meeting at least 70% of students' expectations will be analyzed using college MIS and prepare a report on the same. Such faculties are made to attend FDPs/workshops compulsorily to help them to understand & improve the teaching learning process.

Report on Students' Feedback on Facilities (2022-23)

S. No.	Particulars	Feedback Response	Actions/Remarks
01	Classroom/Laboratory/ Workshop space and overall ambiance	4.13	All classrooms, laboratories, and workshop areas comply with university norms, ensuring adequate space and facilities. The institute prioritizes good ventilation to maximize natural light and air circulation, creating a conducive learning and working environment for students and faculty alike.
02	Adequacy of amenities like Furniture/Lights/Fans/Projector in Classroom/Tutorial Rooms/ Laboratories	3.92	All classrooms are equipped with ample furniture to accommodate students comfortably. Additionally, LCD projectors are installed in each classroom to facilitate interactive learning experiences. Furthermore, sufficient lighting and fans are provided to ensure a conducive environment for teaching and learning.
03	Adequacy of Sufficient Laboratory Equipment/Software required for conduction of practical as per curriculum	3.82	All laboratory equipment necessary to conduct experiments according to the university curriculum are readily available. Additionally, the software used in the laboratories is updated annually to ensure compatibility with the latest educational standards and technological advancements. This commitment to maintaining up-to-date resources facilitates a dynamic and effective learning environment for students. The number of computers available for students is way ahead of AICTE specified student computer ratio i.e. 1:6.
04	Maintenance and cleanliness of Classrooms/ Laboratories	3.78	All machines and equipment are maintained regularly to ensure optimal performance and safety standards. Additionally, dedicated housekeeping staff diligently clean classrooms and laboratories on a daily basis, maintaining a hygienic and organized environment conducive to learning.

05	Availability of reading room with sufficient reading space and learning resources in the central library	4.28	<p>Adequate space is available in the library to accommodate both students and staff comfortably. Furthermore, the library boasts a substantial collection of titles and volumes, meeting the diverse academic needs of its users.</p> <p>Annually, the library undergoes updates with new titles and volumes, ensuring alignment with the evolving educational requirements and standards set forth by the university.</p> <p>This commitment to maintaining a well-stocked and up-to-date library enhances the learning experience for all members of the institute community.</p>
06	Adequacy of indoor and outdoor sport facility	3.42	<p>Indoor game facilities, such as Table Tennis, carom, and chess, are readily available for students to enjoy and participate in recreational activities.</p> <p>Additionally, outdoor sports facilities including volleyball court, throw ball court, and basketball court are present on campus and actively utilized by students for physical fitness and sporting activities.</p> <p>Furthermore, the presence of a multigym facility enhances the options for physical exercise and promotes overall well-being among the student community.</p> <p>These amenities collectively contribute to a well-rounded campus experience, supporting both the physical and mental health of students.</p>
07	Sufficient number of toilets for Boys & Girls	4.48	<p>Adequate restroom facilities, including toilets and urinals, are conveniently located on every floor of the administrative block, technical blocks, workshop, library, cafeteria, and hostels to cater to the needs of both male and female students and staff.</p> <p>This ensures accessibility and convenience, promoting a comfortable and hygienic environment throughout the campus.</p>
08	Adequacy of potable water & outlets for drinking water	3.93	<p>Sufficient potable water outlets are strategically placed throughout the campus, including the administrative block, technical blocks, workshop, cafeteria, and hostels, ensuring convenient access to drinking water for students and staff.</p> <p>The institute places a high priority on hygiene and cleanliness, maintaining the</p>

			<p>water outlets to the utmost standards. Additionally, to further enhance the amenities, a hot and cold-water dispenser has been installed at the cafeteria, catering to diverse preferences and ensuring students' comfort and satisfaction.</p>
09	Adequacy of space for Cafeteria and overall ambiance	3.32	<p>The cafeteria is designed to accommodate a sufficient number of students and staff, ensuring ample space for dining. The overall ambiance of the cafeteria is carefully curated to promote a welcoming and comfortable atmosphere for all patrons. Moreover, hygiene is prioritized in the cafeteria, with stringent measures in place to ensure the cleanliness of food preparation areas, utensils, and serving counters. In addition to providing a comfortable dining environment, the cafeteria also offers a variety of nutritious and hygienic food options for both day scholars and hostel residents.</p>
10	Guidance to students from time to time by Training/ Placement / Personality activities conducted by Training & placement cell	3.48	<p>The Training and Placement Cell conducts Regular training sessions to enhance students' skills and prepare them for the competitive job market. These training sessions cover various aspects such as aptitude tests, technical skills, communication skills, interview techniques, and personality development. Furthermore, the placement cell actively liaises with industry partners to organize campus recruitment drives, providing students with opportunities to interact with potential employers and secure job placements. Moreover, the placement cell offers career counseling and guidance to students, helping them identify their career goals and chart a path towards achieving them.</p>
11	Adequacy of backup electric supply	4.32	<p>The college ensures uninterrupted electric power supply with 24X7 availability through adequate backup systems. We maintain two Diesel Generators with a combined power generation capacity of 222.5 KVA to mitigate power outages effectively. Additionally, all computer labs are equipped with Uninterruptible Power</p>

			<p>Supply (UPS) units to provide backup, ensuring continuous operation of computer.</p> <p>Moreover, we have a grid-connected 125 KVA solar power unit, contributing to our power backup capabilities.</p> <p>Overall, with a combination of diesel generators, UPS units, and solar power integration, our college prioritizes reliable power backup solutions to ensure uninterrupted operations and facilitate a conducive learning and working environment for students, faculty, and staff.</p>
12	Overall Infrastructure Maintenance and Cleanliness within the campus	4.37	<p>The institution is committed to achieving a clean and hygienic campus environment, and to this end, we have established a dedicated maintenance and gardening team.</p> <p>This team works tirelessly to ensure that our campus remains clean, well-maintained, and aesthetically pleasing at all times.</p>
13	Adequate weightage/exposure given to participate in curricular/Extra-curricular activities	3.26	<p>The college strongly encourages students to participate in a wide range of sports, games, curricular, and extra-curricular activities as part of their holistic development.</p> <p>Indeed, the staggered academic calendar implemented post-COVID-19 has presented challenges in accommodating students' participation in extracurricular activities.</p> <p>The altered schedules and prioritization of academic requirements have limited the time available for students to engage in such activities.</p>
