Institute Response: A

At Shri Madhwa Vadiraja Institute of Technology and Management (SMVITM), we prioritize stakeholder feedback as a cornerstone of our educational philosophy. We actively seek input from various stakeholders, including students, faculty, alumni, and employers, to ensure that our syllabus and its delivery align with the evolving needs and expectations of the community. The teaching-learning process at SMVITM involves a comprehensive feedback system, encompassing formative and summative feedback, course end surveys, graduate surveys, student satisfaction surveys, facility feedback, alumni surveys, and curriculum feedback. The feedback mechanisms are designed to gather insights from various stakeholders and continuously improve the educational experience. Curriculum feedback is collected from all stakeholders, analysed, and appropriate actions taken based on the feedback. The actions taken are then communicated to relevant bodies for necessary implementation, and the action taken report is subsequently hosted on the institute website. Having a college website dedicated to gathering feedback from stakeholders is an excellent initiative that can contribute to continuous improvement and accountability within the institution.
