DEPARTMENT OF ELECTRONICS & COMMUNICATION ENGINEERING

Measuring Course Outcomes attained through Semester End Examinations

2019-23 Batch

For 2019-23 Batch SEE, the grades of attainment are obtained in accordance with the range of marks as given in Table 2.6.2.b. The number of students within these ranges is determined for every course and the CO attainment for that course is calculated.

Table 2.6.2b Attainment Level Rubrics

Attainment	Range	Level
Attainment 3	>=36	3
Attainment 2	>=30 and <36	2
Attainment 1	>=24 and <30	1
Attainment 0	<24	0

CO Attainment through SEE is computed for each course using the formula:

$$CO \text{ Attainment through SEE} = \frac{\sum_{i=0}^3 ((attainment \ level)_i) * (number \ of \ students \ with \ attainment \ level_i)}{Total \ number \ of \ students \ appeared \ for \ SEE}$$

where *i* represents the attainment level.

The below Table 2.6.2c represents the Semester-wise CO Attainments for all courses from Semester End Examination (SEE) Attainment of the courses offered from 1<sup>st</sup> semester to 8<sup>th</sup> semester of Electronics & Communication Engineering 2019-23 Batch.
