Lab Practice 2: Word building and Vocabulary building Lab

In this lab a set of sentences are taken. These sentences are specially constructed, with one or two words in them, not commonly heard or used. These words are underlined. Students are asked to come out with alternate words without hampering the meaning of the sentence which they handle each time. Second exercise involves replying/ answering 'TRUE' or 'FALSE' for sentences like 'A terrific act is the one that terrifies you', 'An engrossing play is quite boring'..

Lab Practice 3: 'Parts of Speech' learning and practicing Lab

The purpose of the lab is to make students speak or write the English language grammatically correct, emphasising the use of right kind of parts of speech. Sentences constructed wrongly with respect to the parts of speech are posed to the student groups – they are required to identify the errors. Uses of 'Modals' and 'Determiners' are also included.

Lab Practice 4: Laboratory on understanding Tenses and phrases, sentence building practice

Students are given a set of sentences. Each student shall take up one separate sentence from the bulk; identify the tense the sentence carries. All the tenses are covered. Subject-verb concord is identified. Exercises involving changing the sentence written one tense to another tense are taken up. Verbs of Emotion, verbs of Thought, verbs of Senses, verbs of Perception, verbs of Appearance, verbs of Possession-etc. are introduced.

eWriteRight has designed a customised online/offline course as per the VTU syllabus. As per the syllabus, we have structured the course into five modules. Each module contains submodules based on the subheadings mentioned in the syllabus. We have paid utmost attention to ensure that the content is interesting and piques the interest of the student. We have made use of cartoons, social messages, engineering-related sentences and vocabulary, visuals from movies, quizzes on remarkable facts and such like.

The course is truly revolutionary in approach and absolutely unlike a traditional paper-based textbook.

Why eWriteRight?

Open any "technical" communication textbook. Does it really cater to the requirement of an engineering student in terms of teaching engineering vocabulary and making him/her proficient in writing scientific English.

We are rightly placed in doing so due to our unique professional experience. Our parent company-Trans Infopreneur Inc.-is a translation company. We have immense experience in translating documents in engineering, legal, general and other domains into English. Over the years, we have built up a vast repertoire of specialised vocabulary and sentences. We have made use of our rich technical communication experience to teach engineering students the basics of the same.

The only course which covers ALL the topics as per VTU syllabus in one package. Prescribed textbooks cover the syllabus partially.
