3	Technical Writing and General Essay writing Practice Lab
4	Presentation Skills Practice lab
5	GD and Interview facing Practice Lab

DESCRIPTION OF THE LABORATORY PRACTICES

Lab Practice 1: Advanced Speaking and Listening Practice Lab

Here students are made to speak on chosen topics. Listeners have to write about the verbal communication effectiveness of the speaker both by giving ranks and adding comments. They have to add also the aspects of non-verbal communication like (i) Body language including facial expressions and postures (ii) Paralinguistic features (iii) Proxemics (iv) Haptics. Teacher also will judge and give the required suggestions for further improvement.

Lab Practice 2: Précis Writing and Paraphrasing Practice Lab

Exercises involve writing Précis of the given passages, Synopsis of a technical paper, summary/abstract of a Paper and Paraphrasing Act. Students are apprised of 7-step ladder to write down an effective précis and need for learning the art of condensation of Paper.

Lab Practice 3: Technical Writing and General Essay writing Practice Lab

Each student is made to write a technical paper and also an essay on the topics allotted. Principles involved in writing the 'Introduction' and main body part of the paper are learnt. [The teacher scrutinises all the works and suggests improvements].

Lab Practice 4: Presentation Skills Practice lab

Student groups are made and Topics of presentation are distributed. Although collectively the group prepares the presentation material, each student in the group presents the topic to the audience- audience can raise questions- group has to give satisfactory replies. Teacher observes and grades the students.

Lab Practice 5: GD and Interview facing Practice Lab

Class is divided into different groups and topics are given for the Group Discussion. Topic to discuss is finalised, so also the Do's and Don'ts of the process. Ranking is given to the Groups with respect to the performance they show. Real time monitoring of the group activities and thee various observations by the teacher enables him/her to grade the groups and also enables him/her to give the right suggestions.

eWriteRight has designed a customised online/offline course as per the VTU syllabus. As per the syllabus, we have structured the course into five modules. Each module contains submodules based on the subheadings mentioned in the syllabus. We have paid utmost attention to ensure that the content is interesting and piques the interest of the student. We have made use of cartoons, social messages, engineering-related sentences and vocabulary, visuals from movies, quizzes on remarkable facts and such like.

The course is truly revolutionary in approach and absolutely unlike a traditional paper-based textbook.

Why eWriteRight?

Open any "technical" communication textbook. Does it really cater to the requirement of an engineering student in terms of teaching engineering vocabulary and making him/her proficient in writing scientific English.

We are rightly placed in doing so due to our unique professional experience. Our parent company—Trans Infopreneur Inc.—is a translation company. We have immense experience in translating documents in engineering, legal, general and other domains into English. Over the years, we have built up a vast repertoire of specialised vocabulary and sentences. We have made use of our rich technical communication experience to teach engineering students the basics of the same.

The only course which covers ALL the topics as per VTU syllabus in one package. Prescribed textbooks cover the syllabus partially.

A. Server License with Dashboard (Offline)

Requirement: No Internet (except for registration); product will be loaded on college server.

- Student can use the product only on the college computers on which the licenses are loaded.
- Can be installed in English Lab.
- Useful for students who do not have computer at home.
- Students can login on any computer in the Lab/Library/Campus etc. where the college LAN works.
- Faculty can check student progress and marks on Admin dashboard.
- Students can check their progress on their individual dashboard.

B. Individual User License (Online/Offline)

Requirement: Internet is required for Online license.

- In case of Online license, the student can login from his/her computer anywhere, anytime.
- In case of Offline license, the student can load the product only on one computer (PC or Laptop).
- Marks will be stored on the students' dashboard. He/She can send a PDF of the marks scored for any Module to the Faculty.

C. Server License without Dashboard

Requirement: LAN. These license can be installed in the college English lab.

- Student can use the product only on the college computers on which the licenses are loaded.
- Useful for students who do not have computer at home.
- Students can login on any computer in the Lab/Library/Campus etc. where the college LAN works.
- Students marks or progress on the Module will not be stored.
- Students can attend the quiz and check if they have answered the question correctly or not, but marks and progress will not be stored for future reference.
- Extremely cost-effective in case the college does not wish to buy individual license per student. On the other hand, lack of dashboard would imply that student performance cannot be monitored effectively.
- Faculty supervision is a must.
- For testing purpose we can design additional exercises which can be evaluated by the faculty.

Registration Requirement

We will require complete name, mobile no. and email ID of students for registration purpose (for individual license).

No details would be required for licenses bought for the English Lab/Library.
