Lab Practice 2: Phonetics, Intonation and Pronunciation Skills Lab

In this lab, students are introduced to the 'International Phonetic Alphabet' [IPA], Methods to transcribe words and sentences, (i.e., using standard symbols for standard sounds) are taught. Categories under Vowels, Diphthongs, Consonants, Consonant clusters are presented, students are made to work out the exercises involving these. [2hours]

Lab Practice 3: 'Parts of Speech' learning and practicing Lab

The purpose of the lab is to make students speak or write the English language grammatically correct, emphasising the use of right kind of parts of speech. Sentences constructed wrongly with respect to the parts of speech are posed to the student groups – they are required to identify the errors. Uses of 'Modals' and 'Determiners' are also included. [2hours]

Lab Practice 4: Language Structures (Words, Syllables, Tenses and Phrases) Lab

In this laboratory, students are given exercises to understand different kinds of words and sentences, strong and weak words, phrases, idioms and essentials of sentence building. Students are given exercises to form a set of sentences- these sentences are analysed.. All the types of tenses are introduced. Subject-verb concord is identified. Exercises involving changing the sentence written in one tense to another tense are taken up. Verbs of Emotion, verbs of Thought, verbs of Senses, verbs of Perception, verbs of Appearance, verbs of Possession, Syllables-etc. are introduced. [2hours]

eWriteRight has designed a customised online/offline course as per the VTU syllabus. As per the syllabus, we have structured the course into five modules. Each module contains submodules based on the subheadings mentioned in the syllabus. We have paid utmost attention to ensure that the content is interesting and piques the interest of the student. We have made use of cartoons, social messages, engineering-related sentences and vocabulary, visuals from movies, quizzes on remarkable facts and such like.

The course is truly revolutionary in approach and absolutely unlike a traditional paper-based textbook.

Why eWriteRight?

Open any "technical" communication textbook. Does it really cater to the requirement of an engineering student in terms of teaching engineering vocabulary and making him/her proficient in writing scientific English.

We are rightly placed in doing so due to our unique professional experience. Our parent company—Trans Infopreneur Inc.—is a translation company. We have immense experience in translating documents in engineering, legal, general and other domains into English. Over the years, we have built up a vast repertoire of specialised vocabulary and sentences. We have made use of our rich technical communication experience to teach engineering students the basics of the same.

The only course which covers ALL the topics as per VTU syllabus in one package. Prescribed textbooks cover the syllabus partially.

Features of Technical Communication and More ... (VTU)

A. Server License with Dashboard (Offline)

Requirement: No Internet (except for registration); product will be loaded on college server.

- Student can use the product only on the college computers on which the licenses are loaded.
- Can be installed in English Lab.
- Useful for students who do not have computer at home.
- Students can login on any computer in the Lab/Library/Campus etc. where the college LAN works.
- Faculty can check student progress and marks on Admin dashboard.
- Students can check their progress on their individual dashboard.

B. Individual User License (Online/Offline)

Requirement: Internet is required for Online license.

- In case of Online license, the student can login from his/her computer anywhere, anytime.
- In case of Offline license, the student can load the product only on one computer (PC or Laptop).
- Marks will be stored on the students' dashboard. He/She can send a PDF of the marks scored for any Module to the Faculty.

C. Server License without Dashboard

Requirement: LAN. These license can be installed in the college English lab.

- Student can use the product only on the college computers on which the licenses are loaded.
- Useful for students who do not have computer at home.
- Students can login on any computer in the Lab/Library/Campus etc. where the college LAN works.
- Students marks or progress on the Module will not be stored.
- Students can attend the quiz and check if they have answered the question correctly or not, but marks and progress will not be stored for future reference.
- Extremely cost-effective in case the college does not wish to buy individual license per student. On the other hand, lack of dashboard would imply that student performance cannot be monitored effectively.
- Faculty supervision is a must.
- For testing purpose we can design additional exercises which can be evaluated by the faculty.

Registration Requirement

We will require complete name, mobile no. and email ID of students for registration purpose (for individual license).

No details would be required for licenses bought for the English Lab/Library.
