We are proud to recall the quantitative and qualitative success we have achieved since 1999 by placing over 50000 plus students through our office in reputed universities around the globe. We as a team consider our people our biggest asset and under our guidance of over 24 years of overseas consulting and counselling experience together with real-time, on-ground expertise of studying abroad as well as our unique insights into the various processes involved in securing enrolment at overseas universities, our team has been able to achieve a steady rate of growth and integrated success.

Our Company brochure does provide our suite of scheduled services; however, I would like to bring to your attention points below which could give you more clarity on our capabilities and service offering –

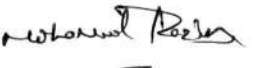

- Planet Education India, is a 24 year old MNC, with 30 offices in India and 6 offices globally, representing over 800+ Universities all over the world and with its official headquarters in Australia and head office in Sydney. Planet Education Karnataka is headed by Ashok Mathews, Regional director, Planet Education, India, and Master Franchisee of Planet Education Karnataka. Ashok has a rich experience of 15 years in the strategic direction of higher education, including his last role as Regional Manager, South Asia at the University of South Wales, Sydney, Australia. Being a student and staff member at the same university, he gathered thorough knowledge and experience in the field of higher education consultancy and started the Bangalore, Manipal and Mangalore centre with the aim of filling a crucial gap in education counselling services.
- The team includes highly experienced counsellors. The center has initiated various programs for students to increase their knowledge about overseas studies and for helping them make the right academic choices.
