ACTIVITY SUMMARY

Student (coordinator) name: Chandana   **USN:4MW20CS018**

Title: Basics of C programming.	
Activity held at: GHS Upoor & Shri Narayana Guru English Medium High School	
Objectives: • To educate students about the different career opportunities in computer science and coding. • To guide students about the basic concepts of c programming. •To instil in them the basics of coding so that they identify their interests accordingly.	
Description: Our team has come up with an initiative of providing basics of C programming to 10th std and below students of the above-mentioned school, so that the students understand the basics of coding and identify their interests preparing them to choose the right courses for future studies and careers and it allows them to discover who they are, what they like to do and what they do best!

Outcomes:

1. The goal is to help the students understand the basics of coding (C programming).
2. The goal is to help students get a gist of how coding works and choose a right career that they are interested in.
3. This is to not only help students make decisions that they need to make now, but also to give them the knowledge and skills they need, to make future career and life decisions.

Learning from this activity:

1) We learnt how students respond to peer-to-peer learning
2) We learnt how to work in co-ordination.
3) We learnt how to complete a task in an efficient way.
4) We developed skills like communication, and patience when teaching to students.
