Name of the student Coordinator : Kavya  
Number of students Involved : 04  
Academic Year : 2021-2022  
Activity Title : To create an awareness about dengue and chikungunya and the prevention methods  
Activity held under : Computer Science and Engineering  
(Department/Cell)  
Activity held at : Hanehalli, Barkur, Yedthady, Varamballi, Alevoor  
Activity Dates : 09-09-2022 to 15-09-2022  
Total Duration needed : 90 hrs

**Title:** Creating awareness about dengue and chikungunya and the prevention methods

### Objectives of the proposal :

- To create awareness about dengue and chikungunya.
- To create the awareness among the people on how to prevent the spreading of dengue and chikungunya.
- To educate the people and create a sense of awareness on how to prevent or control spreading of dengue and chikungunya and tips to treat the disease by distributing pamphlets.

### Background of the proposal :

Dengue and chikungunya fever is vector-borne infectious tropical disease caused by the dengue and chikungunya virus, the most common on arthropod-borne infections in human. According to WHO, the best strategy to avoid dengue and chikungunya endemic is to educate people about the disease and preventative measures. In order to create awareness India has established National Vector Borne Disease Control Programme(NVBDCP).

### Description of the proposal :

We have come up with an initiative of visiting households located in the above mentioned localities to provide information regarding spreading of dengue and chikungunya by distributing pamphlets.

The pamphlet or the prototype will have information regarding on how to prevent spreading of disease by taking certain measures mentioned on the pamphlet and how to recognize or identify the symptoms regarding the disease dengue and chikungunya if the person is already infected.
