1. About Library

A well-equipped library is an essential and integral component of any education system, especially of higher education. Without a proper information, knowledge and infrastructure, no educational system is able to maintain and accomplish its declared goals and objectives. Library is a hub of all activities of general as well as technical education.

The Central Library at SMVITM is housed in a spacious three-storey state of the art independent block. Two floors of the block are occupied exclusively by the Central Library. It has about 1300 square meters of built-up area. The Central Library has a collection of 19,198 volumes of reference/text books, e-books and general category books with over 4,204 titles. In addition to these, there are periodicals and CDs on science, engineering and technology.

The collection includes reference books such as dictionaries, encyclopedias, handbooks and standards. The library offers a book bank scheme for the students, a special book bank scheme exclusively for SC/ST students, reprography and printing facilities. The library subscribes to e-journals and print journals. In addition to the central library, each department has a separate departmental library for ready reference for its faculty and staff.

SMVITM libraries serve as information resource centers. They adopt an open access system and aim to develop a comprehensive collection of documents useful for library users of the institute and facilitate efficient dissemination of knowledge.

To promote the use of library resources, it also subscribes the e-resources mandated by AICTE and VTU. The college library is a member of VTU Consortium for subscription of e-journals like Elsevier-Science Direct, Taylor and Francis, Springer Nature, Institution of Civil Engineers, Emerald, McGraw Hill Education, New Age International, Packt, KNimbus Digital Library, Knimbus Remote Access and Net Analytiks/ Sententia.

Automation of Library

The Library uses *Easylib (Entire Automation System for Library)* Software package, which is an integrated multi-user library management system that supports all in- house operations of the library. The software consists of modules on Registration, Acquisition, Cataloguing and Accessioning, Circulation, Periodicals, Members, Setup and Security, Digital Library ,Online Public Access Catalog (OPAC), In/Out Management, Reports. The books/journals can be accessed through OPAC, which facilitates the search for books by the author, title, and edition. The *Easylib* package has been made more efficient by bar-coding the entire library collection.

2. Library Sections

1. Circulation section

The Central Library is enriched with a huge collection of valuable books. To make the functioning of the library easy and effective, the college library is automated using an Integrated Library Management System called EASYLIB software (EASYLIB 6.4a version) 2022 onwards. The software consists of various modules for acquisition, cataloguing, circulation, serials control, and Online Public Access Catalogue (OPAC), In –Out Visitors tracking etc.

Web OPAC (Online Public Access Catalogue) facility is made available in this software to know the bibliographical details about the collection. Two separate nodes are made available in the Central Library for OPAC facility.
